Delivering Excellent Governance in Warrington Borough Council	

Warrington Borough Council Vision “Growing a Strong Warrington”

Our strategic vision is for **Residents, Businesses** and the Council with Partners to work together to make Warrington a place where everyone can thrive

1. What is Corporate Governance?

Corporate Governance is the term used to describe how the Council manages its affairs and its relationship with the Community of Warrington; it is the way in which the Council ensures the delivery of high quality services to all taxpayers and citizens. Corporate Governance is about how the Council ensures that it is doing the right things, in the right way, for the right people, in a timely, inclusive, open, honest and accountable manner.

The Chartered Institute of Public Finance & Accountancy (CIPFA), and the Society of Local Authority Chief Executives & Senior Managers (SOLACE) have produced revised guidance on delivering good governance, “Delivering Good Governance in Local Government” was published in 2016. The guidance states that *“the overall aim is to ensure that resources are directed in accordance with agreed policy and according to priorities, that there is sound and inclusive decision making and that there is clear accountability for the use of those resources in order to achieve desired outcomes for service users and communities.”*

This document sets out the principles of good governance identified by CIPFA and SOLACE, and identifies the internal controls that the Council has developed in order to ensure good governance.

2. Key Roles of Local Authorities

Warrington Borough Council, as a public organisation, is committed to ensuring the highest possible standards of governance in order to fulfil its vision:

To deliver the vision the Council currently delivers a wide range of services which involve working in partnership with others at a local and a regional level, often under contractual arrangements, many of which involve considerable levels of funding. The Council continues to develop robust governance arrangements for all of its partnership arrangements.

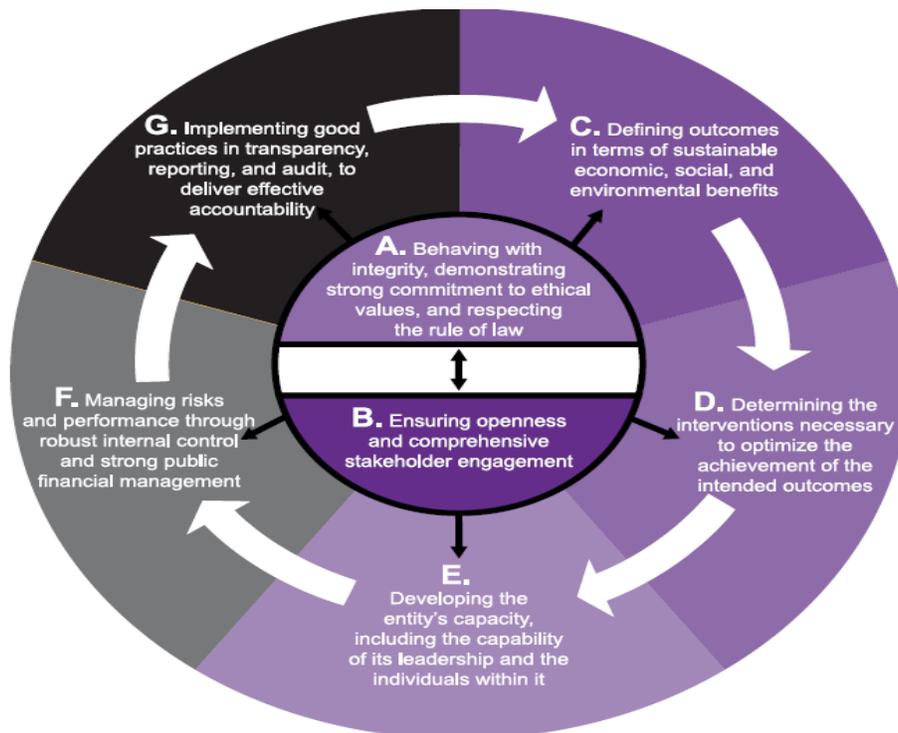

Warrington Borough Council is committed to fulfilling its vision. To enable us to deliver on this vision we will make best use of the resources and assets available to us and our local communities to improve the quality of life for the people of Warrington. Our commitment, and how we will achieve these aims, is set down in this Code of Corporate Governance. Openness, inclusion, integrity and accountability are fundamental principles by which the Council operates.

3. The Governance Framework and the Core Principles of Good Governance

In order to demonstrate the fulfillment of its commitment the Council operates a governance framework. The governance framework sets out how the Council is operating in order to demonstrate compliance, ongoing improvement, its commitment to maintaining the highest ethical standards and levels of governance and also to prepare for the compilation of the Annual Governance Statement (AGS).

The Council has based its governance framework on the CIPFA/SOLACE guidance 2016 'Delivering Good Governance in Local Government'. The framework sets out 7 core principles for good governance.

The diagram below, re-produced from the CIPFA/SOLACE guidance 2016 'Delivering Good Governance in Local Government', illustrates the seven principles of good governance and how they relate to one another.

4. Demonstrating Compliance that we deliver on the Principles of Good Governance

Maintain a local code of corporate governance

Appendix A of this document sets out in detail how the Council will support these principles and demonstrates how it will meet the specific requirements of the framework. Following the annual review of corporate governance this document will be updated to ensure it provides an accurate statement of the Council's current position in relation to governance standards.

Review of the Council's Corporate Governance

The Council will arrange for regular, at least annual, independent reviews of its corporate governance arrangements to be carried out by Internal Audit to ensure continuing compliance with best practice.

In addition the Council will ensure that there is an ongoing process of self assessment of governance standards and improvement planning.

Following each review and self assessment the Council will ensure that an improvement action plan is produced, or an existing one updated, in order to address any significant weaknesses identified and ensure continuous improvement in the system of corporate governance.

Report publicly on compliance with governance arrangements in the Annual Governance Statement

The Council will produce an Annual Governance Statement (AGS). This will accompany the Council's Annual Statement of Accounts. It will state what arrangements the council has in place to ensure the effectiveness of its governance framework and the degree to which the Council has followed its stated governance principles.

The AGS will also highlight any areas the Council considers to require significant improvement and outline the actions planned to address them.

The annual corporate governance review and self-assessment results will provide sources of assurance used to inform the compilation of the AGS. Other sources of assurance include the risk management and performance management systems, Internal Audit reporting and external inspection regimes.

The Audit and Corporate Governance Committee will review the robustness of the AGS. The Chief Executive and the Leader of the Council are required to sign off the AGS.

5. Responsibilities

Every Council officer and member has a responsibility to ensure their personal conduct and the organisation's governance arrangements are always of the highest standard possible.

Senior managers have a responsibility for reviewing governance standards in their areas of responsibility annually and for providing documented assurance of their adequacy, and for identifying and implementing any necessary improvement actions. Improvement actions should be reflected in the appropriate business plans.

The Director of Finance and Information Services has a responsibility to ensure that the Council makes arrangements for the proper administration of its financial affairs.

The Chief Executive and Leader will ensure that an annual review is completed of corporate governance arrangements and give assurances on their adequacy in the AGS which will accompany the Statement of Accounts.

The Audit and Corporate Governance Committee will ensure that the Code of Corporate Governance is reviewed regularly to reflect ongoing developments and planned improvements to the framework and authorise any amendments.

6. Reporting

The annual review of corporate governance will be reported to the Audit and Corporate Governance Committee. The main points of this review will be summarised in the published AGS.

7. Communication and Training

The Corporate Governance Code will be published and accessible to all Council employees and members. Induction training will make reference to corporate governance arrangements. Key officers and Councillors will receive ongoing training and awareness raising to ensure changes in the code are communicated.

The Corporate Governance Code will be reported publicly to citizens and service users with a copy available on the authority's website. The AGS will be reported publicly, with a copy made available via the website.
