Burtonwood and Winwick Ward Profile 2015

Introduction

This profile sets out the key demographic data for Burtonwood and Winwick from the 2011 Census and later sources. Burtonwood and Winwick is one of 22 wards within Warrington. In the map below, the wards of Warrington are outlined in black and Burtonwood and Winwick is the area shaded blue.

All data within the profile is provided from the Office for National Statistics unless otherwise stated (source: Office for National Statistics licensed under the Open Government License v.2.0). Figures may not sum to 100% due to rounding.

Burtonwood and Winwick Ward Profile 2015

Burtonwood and Winwick measures 1,839.98 hectares and at the time of the 2011 Census was home to 3.50 persons per hectare. By comparison, the average figure for Warrington was 11.20 persons per hectare.

	Geographical area, land only measurements	Density (census)
	2013	2011
	hectares	persons per hectare
Burtonwood and Winwick	1,839.98	3.50
Warrington	18,065.98	11.20

Population

The latest midyear estimates suggest that there were 6,322 people living in Burtonwood and Winwick in 2013, and Census 2011 indicated that the area contained 2,557 households. In 2011 the average size of household in Burtonwood and Winwick was 2.4 people, compared with a Warrington average of 2.3 people per household.

	Number of all households	Average household size	Total resident population
	2011	2011	2013
	households	people per household	people
Burtonwood and Winwick	2,557	2.4	6,322
Warrington	85,140	2.3	205,100

According to the 2013 midyear population estimates, 51.8% of Burtonwood and Winwick residents were female and 48.2% were male. Residents from black and minority ethnic (BME) groups formed 2.4% of Burtonwood and Winwick's population, compared with 4.1% for Warrington.

	Percentage Of all usual residents - female	Percentage Of all usual residents - male	BME population (%)
	2013	2013	2011
	%	%	%
Burtonwood and Winwick	51.8	48.2	2.4
Warrington	50.4	49.6	4.1

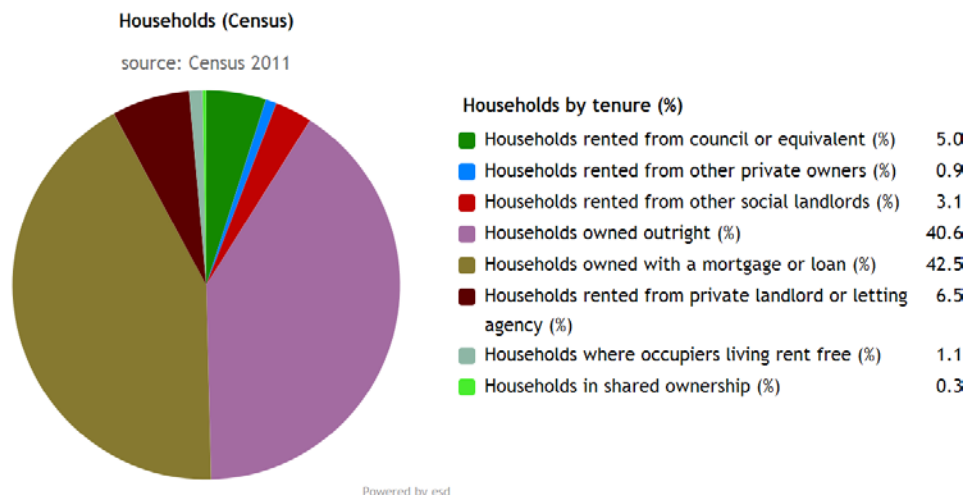

Burtonwood and Winwick Ward Profile 2015

According to the 2013 midyear population estimates, 17.2% of residents in Burtonwood and Winwick were aged under 16 compared with the Warrington average of 19.1%. 59.9% were aged 16 to 64 compared with the Warrington average of 63.8%. Amongst the older population, 22.9% of residents in Burtonwood and Winwick were aged 65+, compared with a Warrington average of 17.1%.

Housing Tenure

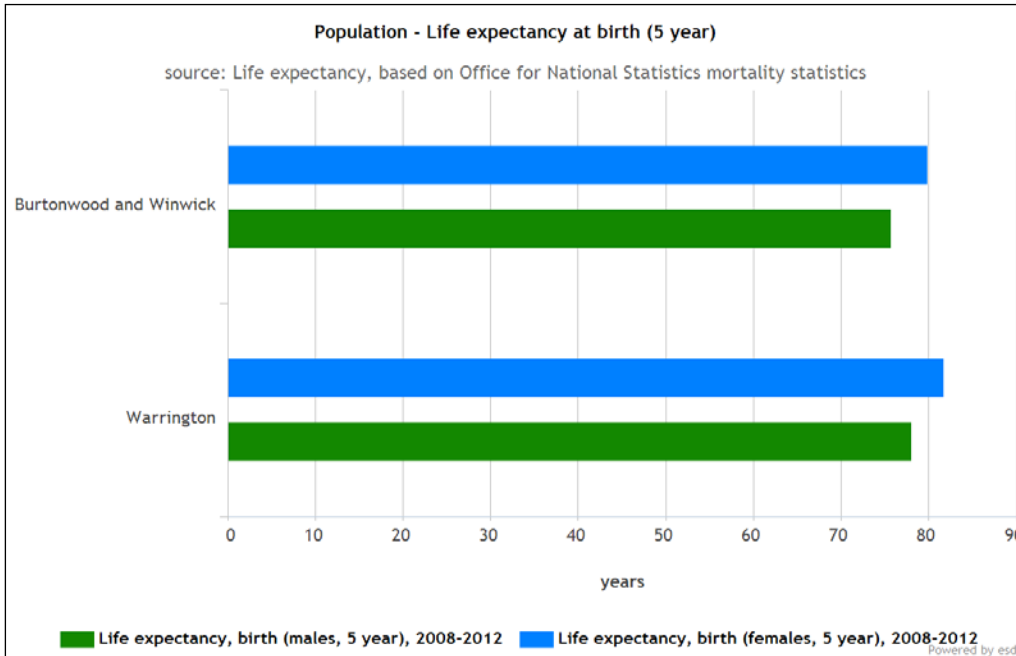

In Burtonwood and Winwick at the time of the 2011 Census, the main housing tenure type was 'Households owned with a mortgage or loan' (42.5%). Across Warrington the main housing tenure type was also 'Households owned with a mortgage or loan' (39.6%).

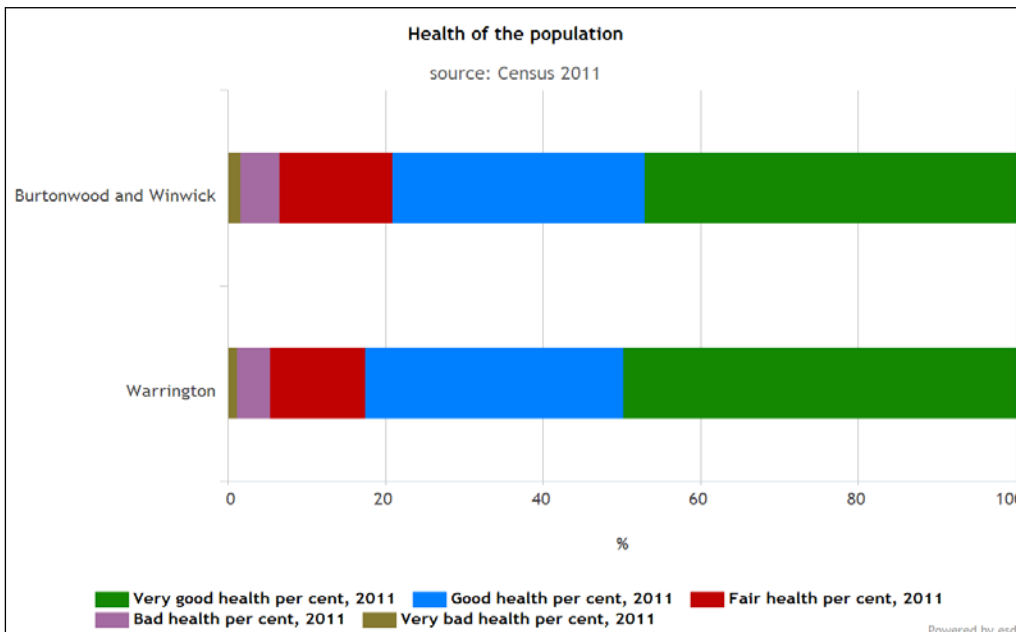

Burtonwood and Winwick Ward Profile 2015

Health

According to Public Health England data, men in Burtonwood and Winwick are expected to live for 75.7 years on average, and women for 79.9 years. This compares with an average of 78.1 years for men across Warrington and 81.8 years for women across Warrington. Life expectancy at birth for men across England is currently 78.9 years and for women it is 82.8 years.

47.2% of residents in Burtonwood and Winwick reported their health as 'very good' and 32.1% reported it as 'good' in the 2011 Census. This compares with figures of 49.8% and 32.7% respectively amongst residents across Warrington overall.

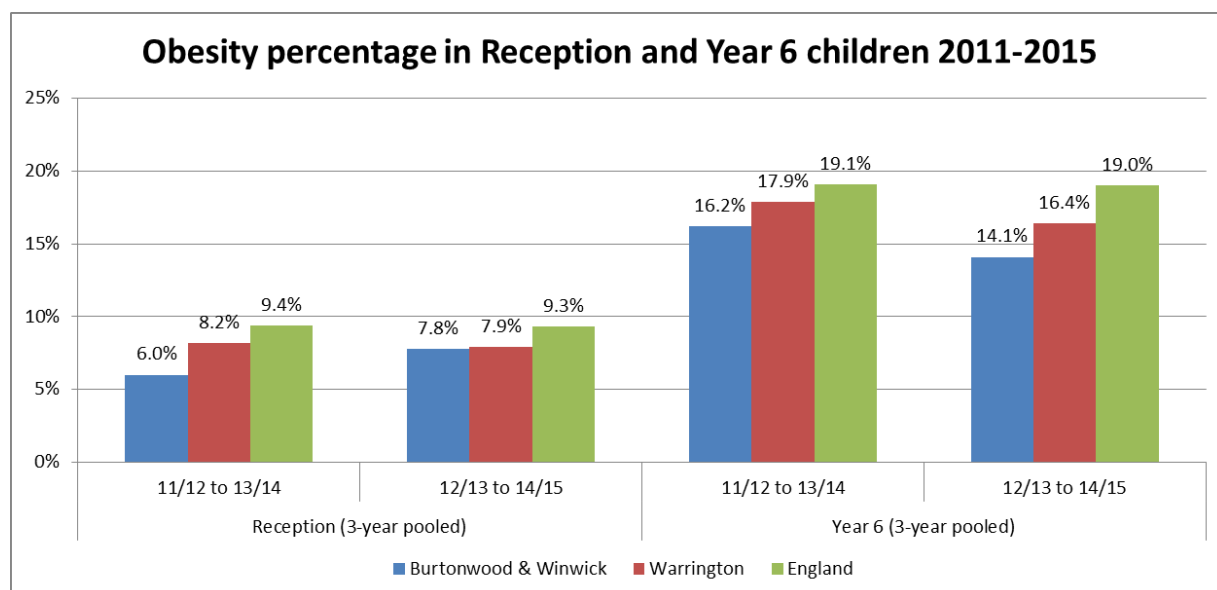

Burtonwood and Winwick Ward Profile 2015

Under the National Child Measurement Programme, a child is classed as obese if they fall within the top 5% for Body Mass Index on the 1990 national child growth charts for a child of their sex and age. According to the Programme, 7.8% of Burtonwood & Winwick children measured in Reception year between the academic years 2012/13-2014/15 were obese, compared with 7.9% across Warrington and 9.3% across England. Amongst Year 6 children measured, 14.1% were classed as obese in Burtonwood & Winwick, compared with 16.4% for Warrington and 19.0% for England.

	Obese children in reception year (%)		Obese children in year 6 (%)	
	2011/12-2013/14 (academic)	2012/13-2014/15 (academic)	2011/12-2013/14 (academic)	2012/13-2014/15 (academic)
Burtonwood & Winwick	6.0%	7.8%	16.2%	14.1%
Warrington	8.2%	7.9%	17.9%	16.4%
England	9.4%	9.3%	19.1%	19.0%

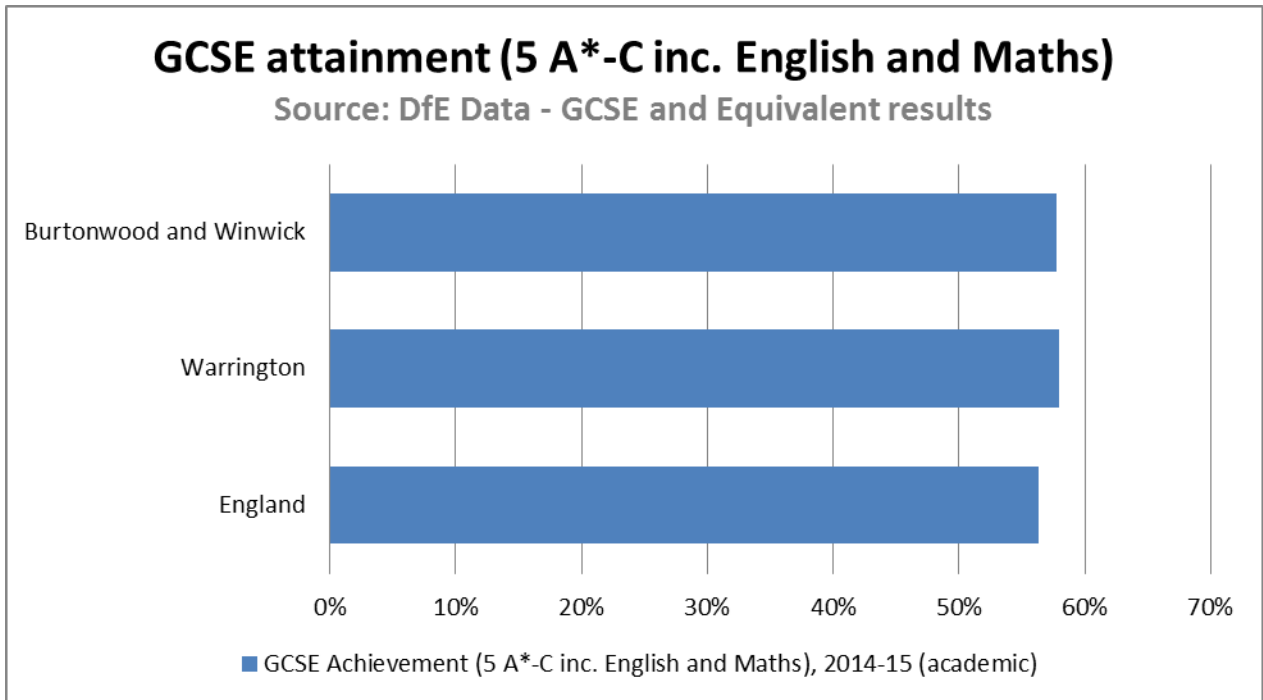

Childhood obesity has increased in Reception but decreased in Year 6 in Burtonwood & Winwick over time, which is against the Warrington and England trends for reception and alongside the trends for Year 6. Between 2011/12 and 2013/14 in reception year 6.0% of Burtonwood & Winwick children were obese, compared with 8.2% across Warrington and 9.4% across England. In Year 6 over the same period, 16.2% were classed as obese in Burtonwood & Winwick, compared with 17.9% for Warrington and 19.1% for England.

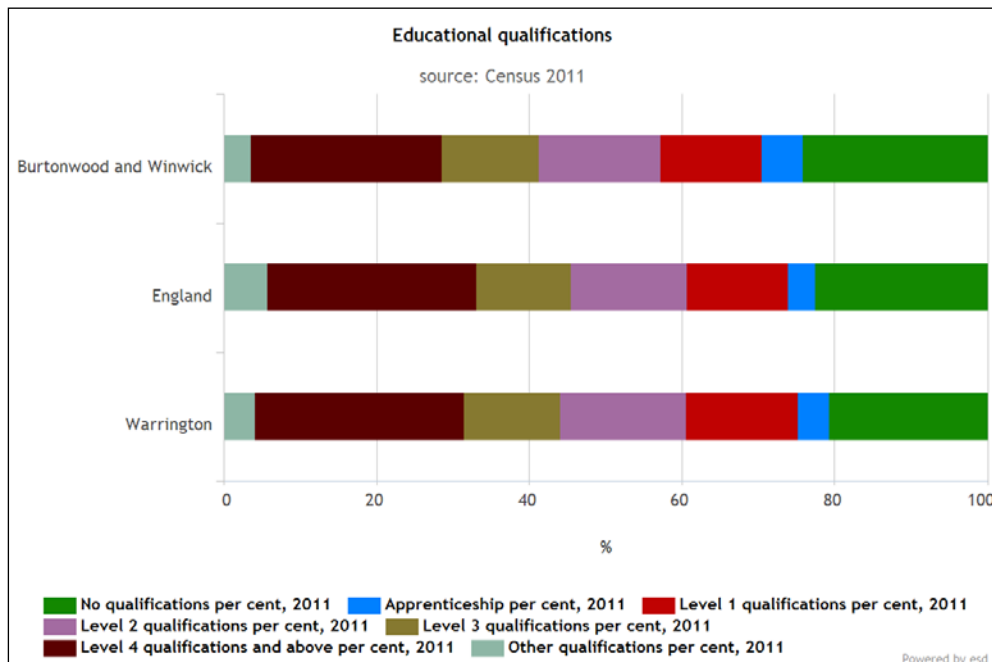

Education and Skills

In summer 2015, 57.8% of pupils living in Burtonwood and Winwick achieved at least five GCSE passes at grades A*-C (including English and Maths). This compares with a Warrington average of 57.9%, and an England average of 56.3%.

Burtonwood and Winwick Ward Profile 2015

In Warrington the main occupational group was Professional occupations (18.10%, compared with 16.51% in Burtonwood and Winwick). Across England the main occupational group was Professional occupations (17.49%).

Deprivation

The Indices of Deprivation 2015 provide a set of relative measures of deprivation for small areas (Lower-layer Super Output Areas) across England, based on seven different domains of deprivation: Income Deprivation, Employment Deprivation, Education, Skills and Training Deprivation, Health Deprivation and Disability, Crime, Barriers to Housing and Services, Living Environment Deprivation. Each of these domains is based on a basket of indicators. As far as is possible, each indicator is based on data from the most recent time point available; in practice most indicators in the Indices of Deprivation 2015 relate to the tax year 2012/13.

Combining information from the seven domains produces an overall relative measure of deprivation, the Index of Multiple Deprivation. In addition, there are seven domain-level indices, and two supplementary indices: the Income Deprivation Affecting Children Index and the Income Deprivation Affecting Older People Index.

There are 32,844 small areas (Lower Super Output Areas or LSOAs) in England, each with an average of 1,500 residents. The Index of Multiple Deprivation ranks every small area in England from 1 (most deprived area) to 32,844 (least deprived area). This can be expressed as a 'national rank percentile' (where 0% is the most deprived and 100% is the least deprived). It is common to describe how relatively deprived a small area is by saying whether it falls among the most deprived 10 per cent, 20 per cent or 30 per cent of small areas in England (although there is no definitive cut-off at which an area is described as 'deprived').

Burtonwood and Winwick Ward Profile 2015

The table below and map on the following page shows how small areas in Warrington compare for Multiple Deprivation. On the map the small areas coloured red are those with the most deprivation and small areas coloured dark green are those with the least deprivation. In the table each small area is presented alongside the national rank out of 32,844 small areas and the corresponding national rank percentile.

Burtonwood and Winwick Ward Profile 2015

Out of Work Benefits

Data from the Department for Work and Pensions show that in August 2015 there were 1,620 residents in Warrington claiming Job Seeker's Allowance (JSA) representing 1.1% of the population aged 16 to 64 years.

It is estimated that of these, 26 were living in Burtonwood and Winwick Ward, representing 0.7% of the population aged 16 to 64 years. The ward ranked 15 across the 22 wards of Warrington for JSA claims (where 1 is the worst-performing).

It should be noted that JSA claimant rates are falling, as claims to Universal Credit increase. Details of Universal Credit claims are not available at ward level.

In February 2015 there were 10,750 residents in Warrington claiming out of work benefits, representing 8.2% of the population aged 16 to 64 years. It is estimated that of these, 385 were living in Burtonwood and Winwick Ward, representing 10.2% of the population aged 16 to 64 years. The ward ranked 11 across the 22 wards of Warrington for out of work benefits (where 1 is the worst performing).

Area	Total JSA claimants		Out of work benefit claimants	
	August 2015		February 2015	
	people	% rate	people	% rate
Burtonwood and Winwick	26	0.7	385	10.2
Warrington	1,620	1.1	10,750	8.2
