Hatton, Stretton and Walton Ward Profile 2015

Introduction

This profile sets out the key demographic data for Hatton, Stretton and Walton from the 2011 Census and later sources. Hatton, Stretton and Walton is one of 22 wards within Warrington. In the map below, the wards of Warrington are outlined in black and Hatton, Stretton and Walton is the area shaded blue.

All data within the profile is provided from the Office for National Statistics unless otherwise stated (source: Office for National Statistics licensed under the Open Government License v.2.0). Figures may not sum to 100% due to rounding.

Hatton, Stretton and Walton Ward Profile 2015

Hatton, Stretton and Walton measures 1,371.15 hectares and at the time of the 2011 Census was home to 2.20 persons per hectare. By comparison, the average figure for Warrington was 11.20 persons per hectare.

	Geographical area, land only measurements	Density (census)
	2013	2011
	hectares	persons per hectare
Hatton, Stretton and Walton	1,371.15	2.20
Warrington	18,065.98	11.20

Population

The latest midyear estimates suggest that there were 3,092 people living in Hatton, Stretton and Walton in 2013, and Census 2011 indicated that the area contained 1,188 households. In 2011 the average size of household in Hatton, Stretton and Walton was 2.60 people per household, compared with a Warrington average of 2.30 people per household.

	Number of all households	Average household size	Total resident population
	2011	2011	2013
	households	people per household	people
Hatton, Stretton and Walton	1,188	2.60	3,092
Warrington	85,140	2.30	205,100

According to the 2013 midyear population estimates, 50.5% of Hatton, Stretton and Walton residents were female and 49.5% were male. Residents from black and minority ethnic (BME) groups formed 2.8% of Hatton, Stretton and Walton's population, compared with 4.1% for Warrington.

	Percentage Of all usual residents - female	Percentage Of all usual residents - male	BME population (%)
	2013	2013	2011
	%	%	%
Hatton, Stretton and Walton	50.5	49.5	2.8
Warrington	50.4	49.6	4.1

Hatton, Stretton and Walton Ward Profile 2015

Amongst the older population, 15.6% of residents in Hatton, Stretton and Walton were aged 65+, compared with a Warrington average of 17.1%

Housing Tenure

In Hatton, Stretton and Walton at the time of the 2011 Census, the main housing tenure type was 'Households owned with a mortgage or loan' (50.3%). Across Warrington the main housing tenure type was also 'Households owned with a mortgage or loan' (39.6%).

Hatton, Stretton and Walton Ward Profile 2015

Health

According to Public Health England data, men in Hatton, Stretton and Walton are expected to live for 84.1 years on average, and women for 86.2 years. This compares with an average of 78.1 years for men across Warrington and 81.8 years for women across Warrington. Life expectancy at birth for men across England is currently 78.9 years and for women it is 82.8 years.

60.3% of residents in Hatton, Stretton and Walton reported their health as 'very good' and 29.8% reported it as 'good' in the 2011 Census. This compares with figures of 49.8% and 32.7% respectively amongst residents across Warrington overall.

Hatton, Stretton and Walton Ward Profile 2015

Under the National Child Measurement Programme, a child is classed as obese if they fall within the top 5% for Body Mass Index on the 1990 national child growth charts for a child of their sex and age. According to the Programme, 6.5% of Hatton, Stretton & Walton children measured in Reception year between the academic years 2012/13-2014/15 were obese, compared with 7.9% across Warrington and 9.3% across England. Amongst Year 6 children measured, 7.1% were classed as obese in Hatton, Stretton & Walton, compared with 16.4% for Warrington and 19.0% for England.

	Obese children in reception year (%)		Obese children in year 6 (%)	
	2011/12-2013/14 (academic)	2012/13-2014/15 (academic)	2011/12-2013/14 (academic)	2012/13-2014/15 (academic)
Hatton, Stretton & Walton	6.3%	6.5%	8.6%	7.1%
Warrington	8.2%	7.9%	17.9%	16.4%
England	9.4%	9.3%	19.1%	19.0%

Childhood obesity has increased in Reception but decreased in Year 6 in Hatton, Stretton & Walton over time, which is against the Warrington and England trends for reception and alongside the trends for Year 6. Between 2011/12 and 2013/14 in reception year 6.3% of Hatton, Stretton & Walton children were obese, compared with 8.2% across Warrington and 9.4% across England. In Year 6 over the same period, 8.6% were classed as obese in Hatton, Stretton & Walton, compared with 17.9% for Warrington and 19.1% for England.

Education and Skills

In Warrington the main occupational group was Professional occupations (18.10%, compared with 28.06% in Hatton, Stretton and Walton). Across England the main occupational group was Professional occupations (17.49%).

Deprivation

The Indices of Deprivation 2015 provide a set of relative measures of deprivation for small areas (Lower-layer Super Output Areas) across England, based on seven different domains of deprivation: Income Deprivation, Employment Deprivation, Education, Skills and Training Deprivation, Health Deprivation and Disability, Crime, Barriers to Housing and Services, Living Environment Deprivation. Each of these domains is based on a basket of indicators. As far as is possible, each indicator is based on data from the most recent time point available; in practice most indicators in the Indices of Deprivation 2015 relate to the tax year 2012/13.

Combining information from the seven domains produces an overall relative measure of deprivation, the Index of Multiple Deprivation. In addition, there are seven domain-level indices, and two supplementary indices: the Income Deprivation Affecting Children Index and the Income Deprivation Affecting Older People Index.

There are 32,844 small areas (Lower Super Output Areas or LSOAs) in England, each with an average of 1,500 residents. The Index of Multiple Deprivation ranks every small area in England from 1 (most deprived area) to 32,844 (least deprived area). This can be expressed as a 'national rank percentile' (where 0% is the most deprived and 100% is the least deprived). It is common to describe how relatively deprived a small area is by saying whether it falls among the most deprived 10 per

Hatton, Stretton and Walton Ward Profile 2015

cent, 20 per cent or 30 per cent of small areas in England (although there is no definitive cut-off at which an area is described as 'deprived').

The table below and map on the following page shows how small areas in Warrington compare for Multiple Deprivation. On the map the small areas coloured red are those with the most deprivation and small areas coloured dark green are those with the least deprivation. In the table each small area is presented alongside the national rank out of 32,844 small areas and the corresponding national rank percentile.

Out of Work Benefits

Data from the Department for Work and Pensions show that in August 2015 there were 1,620 residents in Warrington claiming Job Seeker's Allowance (JSA) representing 1.1% of the population aged 16 to 64 years.

It is estimated that of these, 4 were living in Hatton, Stretton and Walton Ward, representing 0.2% of the population aged 16 to 64 years. The ward ranked 22 across the 22 wards of Warrington for JSA claims (where 1 is the worst-performing).

It should be noted that JSA claimant rates are falling, as claims to Universal Credit increase. Details of Universal Credit claims are not available at ward level.

In February 2015 there were 10,750 residents in Warrington claiming out of work benefits, representing 8.2% of the population aged 16 to 64 years. It is estimated that of these, 65 were living in Hatton, Stretton and Walton Ward, representing 3.3% of the population aged 16 to 64 years. The ward ranked 22 across the 22 wards of Warrington for out of work benefits (where 1 is the worst performing).

Area	Total JSA claimants		Out of work benefit claimants	
	August 2015		February 2015	
	people	% rate	people	% rate
Hatton, Stretton and Walton	4	0.2	65	3.3
Warrington	1,620	1.1	10,750	8.2
