Development In Grappenhall Area

I wish to voice my objection to your planned development, why ruin a beautiful area of green land. The thought of another retail development is ludicrous!! The south Warrington villages have an abundance of small independent shops along with some of the big boys, parking charges brought in recently make it hard enough to encourage people to shop local and now you are thinking of another retail area - maybe you should take a look at what WBC have done to the town centre !!. Bridge Street used to be a thriving High Street, and the market was easily accessible, people using one would use the other, now Bridge Street almost has tumbleweed blowing down it, it's ruined !!. The redevelopment of the market is just a white elephant, your parking charges keep everyone away !!. The town has lost it. Everyone heads to Gemini - free parking- plus horrendous queues - please don't do this to the other side of the town too !!! Maybe investment in existing housing areas is the way to go, you can't just build new ones when you don't bother with the old ones anymore. Whoever is working in your planning department should hang their heads in shame at what they have done to this town !!.
