

To Whom It May Concern

WARRINGTON LOCAL PLAN OBJECTION

The Local Plan does not fully consider how all the extra traffic will impact our roads. [REDACTED]
[REDACTED] With the proposal that means an extra
48,000 plus cars on our roads, which are already congested.

[REDACTED] Can you imagine how the parking will be effected
with all the extra cars that will also use the village? Stockton Heath only has 2 car parks and the street parking is already
clogging up the roads.

[REDACTED]
We don't have enough roads and our roads are not big enough to cope with a further 48,000 cars. Think of all that extra
pollution in the environment and our lungs.

New roads are needed before the houses.

What about the hospital? I watch the news, how can the NHS afford to build and staff more surgeries? How will
Warrington Hospital cope? [REDACTED]

I cannot believe you will take away our green belt. I love living here and being in the countryside. There is no reason for
you to start building on this. There are plenty other areas in Warrington can be built on without touching our green space.

It makes me sad to think of what could happen to our local community and makes me want to move, which is even sadder.

Yours faithfully
