I am contacting you to raise my concerns over the development proposed in South Warrington.

It is clear that there is widespread concern and objection to the proposed development. Why when people are not requiring or needing this development is it even being considered – what happened to democracy?

However, given that the proposal has been made I am sure that you will have seen the congestion that is a regular feature on the A49 which , regardless of any new roads , will be compounded by any new development.

I thought greenbelt was supposed to be protected.

When the M6 is obstructed which seems to be a daily occurrence the traffic is generally diverted through Stretton, Appleton, Stockton Heath and Warrington. Again this will be compounded by the proposed development.

Stockton Heath is a very popular destination for leisure with a great range of restaurants and pubs. It attracts visitors from a wide area. The proposed development will only increase the number of people seeking a nice night out in Stockton Heath. Where will they park? Car parking facilities within Stockton Heath are somewhat limited now. Where does the council propose to put new parking facilities in Stockton Heath?

There are obviously many more concerns and I want you to understand that I and many others object in the strongest terms to this proposal
