

To Whom it may concern

I wish to put forward my concerns for the intended building of houses in the Warrington Area.

Schools, Doctors and Hospitals cannot cope already, so we would need new ones to be built.

Traffic already is a big problem along the A49. Coming from Junction 10 of the M56 the queues of cars up to the lights at the Cat and Lion are extremely long at certain times of the day. When there are problems on the M6, M62 and M56 the traffic cuts through the middle of Warrington making things even worse.

The bridge at Stockton Heath already causes huge delays and I dread to think what it would be like with all the extra cars from these new builds.

The houses being built are to be affordable housing, but even then the people living in them will most likely have some form of transport and in a lot of cases will have two cars per household.

I also object very strongly to having them build on greenbelt land. You should be looking at brown sites that are an eyesore, pulling them down and building houses on them.

It has been mentioned that Warrington Council wish to have a city status, I really do not think that would happen and most people I have spoken to do not want it.
