

Dear Sirs

The Development Plan, if continued, will spoil Warrington more than it has been already.

Warrington is my home town and will be devastated, if for example, Bridge Street is not saved by keeping the shops and perhaps having flats for employees on the first floors.

There will obviously be a huge increase in traffic causing enormous health problems and congestion.

A large increase in the population is going to be too much for the services to cope i.e. schools, hospitals and health services apart from the loss of huge green belt areas.

I hope greater consideration will be given to the plans before Warrington is destroyed any further.

Yours faithfully
