

Dear Sir

We would place on record our opposition
to your ill conceived plans to snare and grab
the green belt in order to create upto 22600 homes
Your current proposals ignore the current road network
in Warrington that is judged not fit for purpose and
yet your proposals could create a minimum 22260 cars
and additionally will add to the air quality in Warrington
which is currently the 2nd worst in the North West which will
not improve with the loss of green belt which is the lung
of Warrington
Places like Garden City do not improve and
is your "promise" to provide facilities again in Green Belt
land

Yours faithfully
