

Dear ~~Councillor~~ Planning Policy Team, for housing,

I have just watched a video clip presentation, presented by Warrington Borough Council, at the Park Royal Hotel in Stretton. It talked about the need for housing in the next 20 years, because of the growth expected in Warrington. And that the green belt in the south & south-west of Warrington has been proposed as the best site. WHY?

I agree that more houses might be needed, but I am appalled that any green belt land should be used. I feel that this has not been thought through properly, with all due consideration and care. The green belt area is the best part of Warrington and should be kept at all costs, for people's welfare and well-being.

The regeneration for growth needs to start at the hub, the centre of Warrington, which for the most part is on eyesore, at the moment, because of derelict buildings and shops closed down.

The land is there, for affordable housing.
Then the brown field sites, need to be
seriously considered.

South Warrington should not even, be
considered for new housing. It would not be
able to cope, with more residents.
GP centres, the hospital, and roads, schools,
it would be a nightmare; and destroy a
beautiful area.

I am vehemently opposed to any plans,
for houses, to be built in South Warrington,

Yours sincerely,
