

It's criminal using
arable land & ruining
the rural area. Once done
it cannot be replaced.

PDO 2133

Dear Sir,

Re: The housing situation.
Firstly do we need over 9,000
houses. Who's going to use them.

With so many rough areas on
Warrington's side why not use those.

The land you talk of putting
on is Green Belt land. Good
arable land farmed & maintained
by farmers.

There's room for houses round
Lidder's Ferry. A vast area &
many brown field sites too. Use
those.

Instead of semi detached, why not flats, ~~and~~ blocks of terraced houses, they would take up as much space. Rethink it all through, this building so many.

In Fiddler's Ferry you'd have room for a school too & necessary shops,

Think of the utilities. Water, Gas Electric sewage pipes. Where would the sewage go to!!! Then there's the roads, 900 houses have an awful lot of cars. Bus routes, roads traffic lights!! Yes the North side must

NOT BE FORGOTTEN for building on.

Get the plans out & remake them, it was a waste of cash.
