---

My family and I are TOTALLY opposed to these plans. We live in Appleton and have to go through Stockton Heath on a regular basis. We are constantly stuck in traffic and at a stand still. If all these houses are built we may as well give up our jobs and go on benefits because we will not be able to get out of the area at peak times due to the massive increase in traffic that these extra houses will generate.

Why are all the proposed new houses being squashed into South Warrington and not spread out around the town. It seems totally unfair that we have to take the brunt of the plans. This is OBVIOUSLY due to the fact that land around here is worth more and therefore more profits for the FAT CATS, To hell with what the local residents have to suffer once the developments are complete!

The green belt land around the proposed area is full of paths and parks for people to walk around and it is used not only by local residents, but many people from all around Warrington. They enjoy the spaces available and use them as recreation for the whole family.

We are NOT INTERESTED in a NEW CITY. We already have Liverpool and Manchester on our doorstep and we feel that all the money WASTED on applying for city status could be better spent to benefit the town. [REDACTED]

Warrington was voted as the second best place to live in the country by a recent study carried out by researches and announced on TV [REDACTED] This accolade will soon zoom down the scale once we are living on top of each other and all the green belt land has disappeared. It will become a hell hole with no open spaces and will have a huge effect on people's psyche.

WHAT THE HELL ARE YOU DOING???????
