

[REDACTED]

---

I wish to object to the preferred development option for the following reasons:

- The development will ruin the character of Grappenhall and surrounding areas
- the development will have a detrimental effect on the wildlife including endangered species (I have witnessed bats flying in my garden)
- I believe that the plans are far too ambitious and will not ease congestion
- I am heartbroken to learn that the Trans Pennine trail could be turned into a road/bus route. I spend many days with my family walking on this trail and it is one of very few safe places that my children can roam freely.
- I chose to move to Grappenhall for the peaceful village location, not to live in an ugly concrete city
- Pollution and flooding issues

Regards
