

[REDACTED] [REDACTED]

Dear Sir/Madam

I am writing to strongly object to any proposed development in the Burtonwood area, in particular, references R18/083, R18/054 and R18/058 on the maps shown.

[REDACTED] the whole point of moving here was the rural aspect, whilst still being within reach of civilisation..

Any proposed development would remove the rural aspect and Burtonwood would become just another urban sprawl.

We have a large amount of wildlife in this area and this would also suffer.

The infrastructure is not suitable for any further development.

The drainage is not adequate for housing already around these areas and would not support further development.

The local transport system would not support further development.

In Burtonwood, there is just one doctor and one small supermarket. Again this would put strain on those facilities.

This will lower the price of our property.

Please leave the green belt alone!!!

Thank you.
