

[REDACTED]

---

Dear Warrington Council,

The proposed development in South Warrington, is of great concern [REDACTED]  
[REDACTED] I would like to raise my objection to the planned vast areas being turned into housing, especially the green belt areas. I see on the plans that the Pewterspear Green Trust is included in the development and this would have such a detrimental impact on the area, I am devastated to see this and it makes me seriously want to move away from the Warrington area. South Appleton and Stretton are currently beautiful places to live, but you will drive a lot of wealthy families out of the area as I feel you plan to really spoil this area and make it far less appealing a place to live. We live here as we really feel we live very close to the countryside, this would be taken away from us if plans go ahead and the house prices will decrease significantly.

The impact of the extra cars on the road would make the whole town even more gridlocked and residents would be subjected to unacceptable noise, pollution and disturbance. These issues do not seem to have been addressed and definitely not with with thought and consideration.

Please consider the negative impact this planned development in South Warrington would have on residents, and seriously reduce the development plans. We can no longer live in the area if these plans are set in motion.

Yours Sincerely,

[REDACTED]
