- 7. Duty to Cooperate**

1. Key Messages

This is the 14th Annual Monitoring Report (AMR) to be produced by Warrington Borough Council in its capacity as the local planning authority. The report covers the period from the 1st April 2017 to 31st March 2018. This year's AMR continues the new approach and format employed in last year's AMR. Opportunities have been taken to strengthen the extent to which the document aims to be as user friendly as possible, through for example including links or references to where more detailed information and monitoring outputs can be directly accessed.

Overall the 2017/18 monitoring report makes for positive reading, identifying that the Borough's development plan policies continue to be effectively implemented to secure their intended positive outcomes on the borough's communities, economy and environment.

Headline findings from this AMR include:

- 359 net new homes were completed within Warrington, which is less than reported in the previous monitoring period.
- A total of 86 affordable housing gains were recorded across the period.
- The percentage of dwellings completed on previously developed land has remained high (99%), comfortably exceeding the 80% target, ensuring that the delivery of new homes continues to constitute a catalyst for regeneration.
- The completion of 14,815 sqm of new employment floorspace across 3 sites totalling 4.26Ha of land, with completions at Omega 1 4(L) (North Parcel 4 (L), 336(Land off Bewsey Road) and 407(Plot 1 A Omega South - Dominos). This is lower than the last monitoring period (8.08 Ha).
- Six Section 106 agreements were signed and three unilateral undertakings providing a total future income of £8,996,542.60 primarily due to new agreements at the three Homes England sites Pewterspear, Grappenhall Heyes, and Land bounded by Green Lane and Dipping Brook Avenue, Appleton (Appleton Cross). The Council also received £2,972,384.00 from previous agreements which is higher than that reported in the last AMR (£478,402.12).
- The Council granted planning permission for two development schemes that included conditions relating to energy efficiency and /or elements of decentralised and renewable or low carbon energy generation within the monitoring period.
- The period saw a further decrease of 3,926 tonnes in the total municipal waste arisings when compared to the previous monitoring period.
- The Council determined 1,560 planning applications. Of these, 1,358 (87.1 %) were approved and 202 (12.9%) were refused.

2. Introduction

This annual monitoring report for Warrington Borough Council, in its capacity as a local planning Authority, covers the period 1st April 2017 to the 31st March 2018. It is the 14th Annual Monitoring Report to be prepared by the Council under the provisions of Section 35 of the Planning and Compulsory Purchase Act 2004 (as amended by the Localism Act 2011 - Part 6 Planning, section 113 local development: monitoring reports) and Regulation 34 of the Town and Country Planning (Local Planning) (England) Regulations 2012.

Section 35 of the Planning and Compulsory Purchase Act 2004 (as amended) specifically requires monitoring reports to detail:

- the implementation of the local development scheme; and
- the extent to which the policies set out in the local development documents are being achieved.

In addition Regulation 34 of the Town and Country Planning (Local Planning) (England) Regulations 2012 details that monitoring reports must also contain:

- Details of any neighbourhood development orders or neighbourhood development plans;
- Information pursuant to Regulation 62(4) of the Community Infrastructure Levy Regulations where the authority has introduced a Community Infrastructure Levy Charging Schedule; and
- Action in relation to co-operation with a body or person prescribed under Section 33A of the Planning and Compulsory Purchase Act 2004 (as amended).

At the outset it should be noted that the Local Development Scheme to which this AMR will report progress against is that adopted in October 2016.

The development plan policies in operation across the monitoring period were those adopted policies from the Local Plan Core Strategy, However, a legal challenge to the adopted LPCS removed the housing target from the plan and a review of the Local Plan is now underway. This is addressed in the Local Plan Progress section later in the document.

Monitoring remains integral to the survey – monitor – review cycle that has underpinned plan preparation for many years, and complements the plan – monitor – manage process embraced in current planning practise as well as the wider ‘performance management’ culture adopted by the Council. Following the introduction of the Planning and Compulsory Purchase Act 2004 the ensuing ‘spatial planning’ approach has broadened the range of key issues away from traditional land use and development ones to instead cover a wider range of social, economic and environmental considerations, an approach which this report seeks to embrace. Accordingly this report presents information likely to be of interest to stakeholders and partners beyond the traditional ‘planning’ customer base.

The 2018 AMR is structured to present information around the following themes:

- Contextual Information and Indicators for Warrington
- Local Plan Progress
- Performance against Core & Local Indicators
- Infrastructure Delivery Plan Update
- Summary & Conclusions

3. Contextual Information and Indicators

Settlement & Population

The Office of National Statistics (ONS) mid-2017 population estimate for Warrington is 209,700. The density of population is high with 11.5 residents per hectare; this is much higher than the England average of 4.2 residents per hectare (ONS, population density, 2016). Compared to our neighbouring authorities, Warrington's ethnicity is low with just 4.1% of its total population being non-white British (Census 2011).

Social Characteristics

The 2016 AMR saw the publication of new Indices of Multiple Deprivation 2015 which updated the statistics from 2010. Overall, deprivation within Warrington has increased slightly relative to the 2010 indices. With an average score of 19.3 compared with 18.5 in 2010, Warrington now ranks 147th out of 326 local authorities on the rank of "Average SOA score" measure compared with 153rd in 2010. This places Warrington within the 45th centile, meaning 55% of local authorities within England are less deprived than Warrington. There is significant variation between wards with some wards being amongst the least deprived (Lymm) and some in the most deprived (Poplars & Hulme) in the country. These figures remain the same in this monitoring period.

Employment levels within Warrington remain high. This year, Warrington has 107,500 (79.7%) people as "economically active" compared to 107,700 (79.4%) in 2017. This compares favourably with the North West (76.8%) and Great Britain (78.4%).

The most comprehensive picture of health in the Borough is presented by the Joint Strategic Needs Assessment (JSNA) which draws together information about health and wellbeing in Warrington. Headline findings in relation to health outcomes show that the average life expectancy of Warrington residents is improving, but the pace of improvement has slowed in recent years, and the relative gap between Warrington and England has not narrowed. Warrington has stark variations in affluence within the town. Areas which experience higher levels of socio-economic deprivation experience have correspondingly high levels of ill health. The variation in terms of life expectancy related to deprivation is over 10 years for men and almost 7 years for women. More information on the JSNA can be found at <https://www.warrington.gov.uk/jsna>

In terms of National Vocational Qualifications at level 4 and above, Warrington has gained a higher percentage (41.4%) than the North West average (34.5%) also the Great Britain (38.6%) average, and has generally outperformed the regional and national averages across the remaining levels. Consequently Warrington has a lower percentage of the working age population with no qualifications in comparison to the North West and Great Britain averages. These figures have reduced slightly on the 2016 statistics from the last AMR.

Economic Characteristics

In this monitoring period, Warrington has a total of 135,000 employee jobs recorded with the majority of these being in the Professional, Scientific and Technical Activities sector. This is a slight decrease on 2017 with 136,000 jobs recorded. Warrington is home to the largest cluster of nuclear research and technology firms in the UK and also has major employment clusters in Logistics, Precision Engineering, Telecoms and Software, Energy and Business Services.

Average earnings in Warrington have decreased since 2017 at £569.50 gross weekly pay. This also continues the trend of higher earnings than the North West average (£529.60) but less than the GB average (£571.10). Average house prices have increased in the last monitoring year in Warrington from £175,925 to £187,471. The latest housing tenure and household spaces statistics remain those

from the 2011 Census with 71.6% of all dwellings as owner occupied and 96.8% of household spaces in Warrington being occupied.

Environmental Characteristics

Warrington currently has 375 statutory listed buildings, 623 locally listed buildings, 16 conservation areas and 11 scheduled monuments. Nature designations currently include 55 local wildlife sites, 5 local nature reserves, 4 Sites of Special Scientific Interest (SSSIs) and 3 Special Areas of Conservation (SACs). Following the most recent Landscape Character Assessment for Warrington, the borough has 20 landscape character areas across the Borough. Current mineral operations in Warrington include Southworth Quarry and Rixton Combined Site.

Transport Characteristics

Warrington is at the centre of a highly connected network of motorways (M6/M62/M56), international airports (Manchester and Liverpool John Lennon), mainline rail (West Coast Mainline and Transpennine) and waterway linkages (Manchester Ship Canal). It is also an intersection for some of the busier A routes in the region (A57/A49/A56/A50). Car ownership in Warrington is higher than regional and national levels with higher percentages of households (38.9% compared to 29.5% regionally and 32.1% nationally) owning two or more vehicles and lower percentages owning no car at all. The latest travel to work data for Warrington shows 59.2% of employees come from within Warrington. The top three inflow areas into Warrington come from St Helens (13.8% of commuters), Wigan (13.3%) and Halton (11.8%). The three most popular areas for commuting out of the borough are Halton (13.4%), Manchester (12.1%) and Trafford (9.2%).

4. Local Plan Progress

The Warrington Local Plan Core Strategy was adopted by the Council on 21 July 2014 and is the current Statutory Development Plan for the Borough, setting out the overarching strategic policies for guiding the location and level of development in the Borough up to 2027.

Upon adoption, there was a High Court Challenge which resulted in parts of the Plan being quashed:

- The housing target of 10,500 new homes (equating to 500 per year) between 2006 and 2027 and;
- References to 1,100 new homes at the Omega Strategic Proposal

Not all of the Local Plan Core Strategy has been overturned and all other policies within the Plan remain unaltered and are considered to be a sound and robust basis for the determination of planning applications across the Borough at this point in time.

In October 2016, Executive Board agreed to commence the process of reviewing the existing Warrington Local Plan. The Council subsequently undertook a 6 week period of consultation on the scope of the review and the Council's assessment of Warrington's development needs. The Council also invited developers, landowners, the local community and other stakeholders to submit sites they wanted to be considered as part of the Plan review.

Following the consultation the Council undertook the work necessary to progress to a Preferred Development Option for accommodating Warrington's development needs. This work included:

- Updating the assessment of need for additional homes and jobs in the context of consultation responses and more recent socio-economic data;
- Carrying out a more detailed assessment of the capacity of the existing urban area to accommodate additional development, including the capacity of existing infrastructure;
- Revising the existing Plan's Strategic Objectives to retain the focus on regenerating the town centre and Inner Warrington, whilst recognising the need to accommodate additional growth and release land currently in the Green Belt;
- Assessing different options for the release of Green Belt to accommodate additional growth across the borough, including identification of the additional infrastructure that will be required; and
- Confirming the preferred main locations for development, including the main locations for Green Belt release

Consultation on the Preferred Development Option was carried out between 18th July and 29th September 2017.

The Council is currently finalising the preparation of the proposed submission version of the Local Plan, taking into account representations received to the Preferred Development Option Consultation.

LDS Progress

The council's most recent Local Development Scheme (LDS) was approved at Executive Board on 10th October 2016. The LDS sets out a detailed programme for the review of the Local Plan in order to accommodate the new homes and jobs required to meet Warrington's development needs over the next 20 years in a sustainable manner. The timetable for the review of the Local Plan as set out in the 2016 LDS is shown below:

The Council undertook the Regulation 18 Stage 1 consultation on the Scope and Contents of the Local Plan in accordance with the LDS timetable. The Preferred Development Option consultation was subsequently delayed due to the pre-election period of the 2017 General Election. This meant that consultation could not start until 18th July 2017. The consultation period was extended to 29th September 2017 due to the consultation period taking place over the summer holidays and the level of public interest in the consultation. The LDS timetable is therefore out of date due to this delay.

It is anticipated that the Council will publish the proposed submission version of the Local Plan in March 2019 ahead of consultation under Regulation 19.

The Council will need to update its LDS to confirm the revised timetable for the review of the Local Plan.

Neighbourhood Plan Update

Neighbourhood planning is a right for communities introduced through the Localism Act 2011. Communities can shape development in their areas through the production of Neighbourhood Development Plans, Neighbourhood Development Orders and Community Right to Build Orders.

Appleton Thorn

On 19th June 2017 Warrington Borough Council adopted the Appleton Thorn Ward Neighbourhood Development Plan under 38A (4) (a) of the Planning and Compulsory Purchase Act 2004. The Appleton Thorn Ward Neighbourhood Development Plan now forms part of the Development Plan for Warrington Borough Council.

Grappenhall and Thelwall Parish Area

The Council designated a Neighbourhood Area on 6th March 2017.

Lymm

The Council designated a Neighbourhood Area on 6th December 2017.

Stretton

The Council designated a Neighbourhood Area on 6th December 2017.

Details and updates to the progress of the Neighbourhood Plans can be found below:

https://www.warrington.gov.uk/info/201369/neighbourhood_planning

Community Infrastructure Levy (CIL)

The Council is delaying the introduction of Community infrastructure Levy

In October 2015, the Council undertook a statutory consultation on the CIL Preliminary Draft Charging Schedule (PDCS)

The consultation was undertaken between 20th October and 2nd December 2015. The Council received a total of 20 representations from developers, landowners, parish councils and other community groups.

The Council subsequently commissioned further viability work to assist in reviewing technical issues included in consultation representations as well as updating market information from the baseline viability assessment and review potential viability implications arising from the Housing and Planning Act 2016.

The consultants concluded that there were no viability issues raised by developers during the consultation which necessitated revising the proposed charges.

The additional viability work did however identify that the requirement to provide Starter Homes under the Housing and Planning Act 2016 could enable the Council to increase its proposed charges. However, as the Starter Homes Regulations were not published in their final form, the Council could not be sure of exactly what the viability implications were. Given the scale of the potential impact of Starter Homes on development viability it was not considered to be in the Council's best interest to progress to the Draft Charging Schedule stage at that time.

The Council will consider whether to introduce CIL as it progresses the review of the Local Plan.

As this will delay the introduction of CIL, the Council adopted a Planning Obligations SPD in January 2017 to set out how the Council will negotiate S106 planning obligations in the interim period. The SPD can be found on the council website.

https://www.warrington.gov.uk/download/downloads/id/12367/final_planning_obs_spd_jan_2017.pdf.pdf

Statement of Community Involvement (SCI)

The most recent Statement of Community Involvement (SCI) produced by Warrington Borough Council was adopted in April 2014. The document can be found below:

https://www.warrington.gov.uk/info/200564/planning_policy/1903/local_plan/3

5. Local Indicators

This section of the AMR examines indicators of how the Council has performed in the latest monitoring period (1st April 2017 to 31st March 2018). Previous AMRs had reported against an indicator set carried over from former Communities and Local Government (CLG) Local Development Framework Core Output Indicators (July 2008). There is no longer a statutory requirement to report against these indicators and whilst this was also the case in previous years, the decision was taken in 2015 to set new local indicators that gave a better suite of information to be compared on an annual basis. Incidentally, some of these indicators are taken from the older national CLG indicator set.

The full set of indicators are:

- **HOU1: Net Additional Dwellings Completed (2017/18)**
- **HOU2: Net Additional Dwellings (Projection from SHLAA)**
- **HOU3: New Dwellings Completed on PDL (2017/18)**
- **HOU4: Pitch provision for Gypsy, Traveller and Travelling Showpeople (2016/17)**
- **HOU5: Affordable Housing Completions (2017/18)**
- **ED1: Total Amount of Completed Employment Floorspace (sqm) – by type**
- **ED2: Total Amount of Completed Employment Floorspace (sqm) on Previously Developed Land (PDL) – by type**
- **ED3: Total Amount of Employment Floorspace Under Construction (sqm) – by type**
- **ED4: Employment Land Available (Hectares) – by type**
- **ED5: Employment Land lost to other uses (Hectares)**
- **RET1: New Retail Development in the Town Centre (sqm)**
- **RET2: New Retail Development permitted outside defined centres (as listed in LPCS Policy SN4) (sqm)**
- **RET3: Vacant Floorspace in the Town Centre (Units & Sqm Floorspace)**
- **HFT1: A5 Planning Applications Approved with reference to the Hot Food Takeaway SPD**
- **OS1: Total Amount of Open Space (Hectares)**
- **OS2: Total Amount of Equipped Play Open Space (Sites & Hectares)**
- **OS3: Total Amount of Informal Play Open Space (Sites & Hectares)**
- **OS4: Total Amount of Parks & Gardens Open Space (Sites & Hectares)**
- **EQ1: Planning Permissions granted contrary to Environment Agency advice**
- **EQ2: Changes in Areas of Biodiversity Importance**
- **EQ3: Renewable Energy Generation**
- **EQ4: Changes to Heritage Assets (Statutory Listed Buildings)**
- **EQ5: Changes to Heritage Assets (Conservation Areas)**
- **MIN1: Production of Primary Land Won Aggregates**
- **MIN2: Construction, Demolition and Excavation Waste**
- **MIN3: Production of Secondary / Recycled Aggregates**
- **WST1: Capacity of new waste management facilities by WPA**
- **WST2: Amount of municipal waste arising and managed by management type by WPA**

Housing Land Development and Availability (April 2018)

This report contains the findings from Warrington’s housing monitoring for 2018, which forms the basis of the annual Strategic Housing Land Availability Assessment (SHLAA) 2018. The report has been expanded to include the potential capacity of sites across the borough to accommodate new homes over the next 15 years, in addition to the borough’s 5 year housing land supply.

The final report will be available at the address below:

https://www.warrington.gov.uk/info/200564/planning_policy/1905/evidence_base

The figures contained in the report have a base date of 31st March 2018 and take account of any changes since 1st April 2017 including planning permissions; homes under construction and completions; and a review of the status and conclusions previously reached for sites already within the SHLAA process. They also include any suitable new sites which have been proposed since 1st April 2017, arising from landholder/developer interest or as a result of site information from within the council and the removal of sites that are no longer considered to have potential for housing, including sites secured for non-residential uses.

Identified Deliverable Supply of Housing Land

Through identifying those sites likely to deliver dwelling completions within the next five years (2018-2023), the Borough’s ‘deliverable’ supply of housing land, as at 1st April 2018, has been calculated and is summarised in Table 5.1 of the SHLAA which is re-produced below.

Table 5.1 – 5 Year “Deliverable” Housing Land Supply

	Number of Sites	Area (Ha)	Forecast Completions					Total	Total as %
			18/19	19/20	20/21	21/22	22/23		
PDL	40	133.42	256	173	387	670	450	1936	61.0%
GF	14	69.3	67	231	318	292	242	1150	36.2%
PDL/GF	5	8.02	5	1	40	35	8	89	2.8%
Total	59	210.74	328	405	745	997	700	3175	100%

Although a site having planning permission is not a pre-requisite of being ‘deliverable’ it does imply a greater certainty that development will take place unless there is clear evidence that schemes will not be implemented within five years.

Small Sites Allowance

Previous iterations of the SHLAA did not utilise a physical size or capacity threshold for the identification of sites, as is now required by Planning Practice resulting in 537 sites being presented within the previous 2015 report. A revised approach has been applied within this SHLAA to bring it up to date with current practice. To this end, a physical site size threshold of 0.25ha has been adopted and only sites that meet this threshold have been assessed. For sites below this size, an allowance is made for the delivery of small sites within the housing land supply, based on historic completion information. This has reduced the number of sites assessed to 404.

Warrington has a strong record of delivering a substantial number of dwellings on small sites. This delivery has taken place under varying economic conditions and hence, does not follow any particular trend. Therefore, it is considered reasonable to assume that small sites will continue to be

delivered in the borough throughout the plan period and that an average figure (76 per annum) for the fifteen year period should be employed.

Deliverable Housing Land Supply (including Small Sites Allowance)

The deliverable housing land supply (within the next five years) based on identified supply and small sites allowance is set out in Table 5.2 of the SHLAA, reproduced below.

Table 5.2 – 5 Year “Deliverable” Housing Land Supply (inc. Small Sites Allowance)

	Number of Sites	Area (Ha)	Forecast Completions						Total	Total as %
			18/19	19/20	20/21	21/22	22/23			
PDL	40	133.42	256	173	387	670	450	1936	54.5%	
GF	14	69.3	67	231	318	292	242	1150	32.3%	
PDL/GF	5	8.02	5	1	40	35	8	89	2.5%	
Small Sites	n/a	n/a	76	76	76	76	76	380	10.7%	
Total			404	481	821	1073	776	3555	100.0%	

Identified Developable Supply of Housing Land

The NPPF defines 'developable' land for housing as a site in a suitable location for housing development with a reasonable prospect that the site is available for, and could be viably developed at the point envisaged.

Out of 404 sites assessed within the SHLAA only those sites concluded as being 'suitable, available and achievable' and 'suitable, likely to become available and achievable' are capable of contributing to the Borough's developable supply of housing as only these fit with the definition offered (i.e. suitable, with a reasonable prospect that the site is available and could be viably developed at the point envisaged).

The NPPF requires local planning authorities to identify specific developable sites or broad locations for years 6-10 and where possible, for years 11-15. Through identifying those sites likely to deliver dwelling completions within the next 6-15 years, the Borough's 'developable' supply of housing land, as at the 1st April 2018, has been calculated in Tables 5.3 and 5.4 of the SHLAA, reproduced below.

Table 5.3 - Developable (6 -10 year period) Housing Land Supply (inc. Small Sites)

	Number of Sites	Area (Ha)	Forecast Completions					Total	Total as %
			23/24	24/25	25/26	26/27	27/28		
PDL	32	103.09	572	354	524	523	272	2245	68.1%
GF	9	105.06	151	63	132	135	130	611	18.5%
PDL/GF	1	1.02	0	0	6	0	0	6	0.2%
Small Sites	n/a	n/a	76	76	76	76	76	380	13.2%
Total	42	209.17	799	493	738	734	478	3242	100.0%

Table 5.4 - Developable (11 -15 year period) Housing Land Supply (inc. Small Sites)

	Number of Sites	Area (Ha)	Forecast Completions						Total	Total as %
			28/29	29/30	30/31	31/32	32/33			
PDL	25	85.2	207	219	511	350	171	1458	60.0%	
GF	2	59.78	110	110	122	110	110	562	23.1%	
PDL/GF	3	6.99	2	2	25	0	0	29	1.2%	
Small Sites	n/a	n/a	76	76	76	76	76	380	15.7%	
Total	30	151.97	395	407	734	536	357	2429	100.0%	

Overall Housing Land Supply (including Windfall Allowance)

The deliverable (years 0- 5) and developable (years 6 -15) housing land supply based on identified supply and windfall allowance is set out in Table 5.5 below.

Table 5.5 – Overall (0-15 Year) Housing Land Supply (inc Small Sites Allowance)

	Number of Sites	Area (Ha)	Housing Land Supply				Total	Total as %	
			Deliverable	Developable		Total			Total as %
			0 - 5 years	6 - 10 years	11 – 15 years				
PDL	97	321.71	1936	2245	1458	5639	61.1%		
GF	25	234.14	1150	611	562	657	7.1%		
PDL/GF	9	16.03	89	6	29	1790	19.4%		
Small Sites	N/A	N/A	380	380	380	1140	12.4%		
Total			3555	3242	2429	9,226	100.0%		

HOU1: Net Additional Dwellings Completed (2017/18)

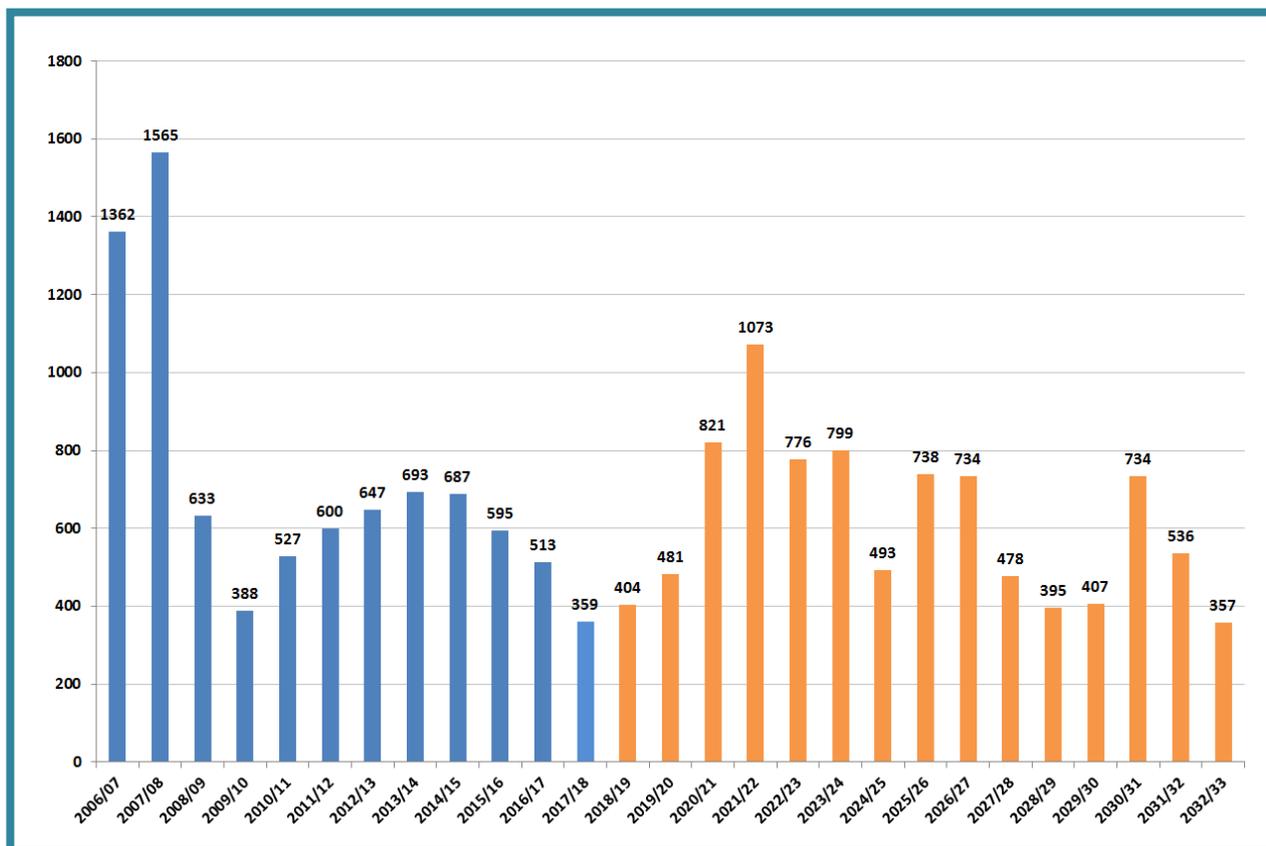

HOU1	Net Additional Dwellings	359
-------------	---------------------------------	------------

The HOU1 indicator shows that 2017/18 saw the completion of 359 net additional new dwellings (taken from 385 gross completions minus 26 losses). This compares to the 513* net new additional dwellings reported in the last monitoring period.

HOU2: Net Additional Dwellings (Projection from SHLAA)

This indicator is a trajectory over time showing how actual dwelling completions compare to the latest forecast completions that come from the latest SHLAA update (in this case, the 2018 SHLAA). The chart below shows an updated trajectory for housing completions up to 2033. It also shows historic completions from 2006/07 to 2017/18 to give an indication of the trend over time. The blue columns represent actual completions and the orange columns represent the forecast completions from the 2018 SHLAA.

*Please note that the Housing completion figures reported in last year's report were incorrect. This was down to an error with the number of losses recorded. Therefore there were 513 net completions (8 losses) as amended in the graph below.

HOU3: New Dwellings Completed on PDL (2017/18)

HOU3	New Dwellings on PDL	384 of 385 (99%)
-------------	-----------------------------	-------------------------

Indicator HOU3 shows that of the 385 gross new dwellings in this period, 384 (99%) were on previously developed land (PDL). This percentage is slightly more than reported in the previous monitoring period (2016/17).

HOU4: Pitch provision for Gypsy, Traveller and Travelling Showpeople (2017/18)

Position at April 2014 (as reported in GTAA)

Gypsy & Travellers		
Site Type	Address	No. of Pitches
Local Authority Sites	-	0
Private Sites with Permanent Permission	57 Gorsey Lane. Orford Smithfield Caravan Park, Glazebury	2 2
Private Sites with Temporary Permission	Two Acre Caravan Park, Walton Woodend Farm, Rixton	15 1
Tolerated Sites (Long term without Planning Permission)	-	0
Unauthorised Developments	Grappenhall Lodge	6
Total Pitches		26

Travelling Showpeople		
Site Type	Address	No. of Pitches
Local Authority Sites	-	0
Private Sites with Permanent Permission	237 Liverpool Road, Gt Sankey	1
Private Sites with Temporary Permission	-	0 0
Tolerated Sites (Long term without Planning Permission)	Foundary Street, Warrington Town Centre	2
Unauthorised Developments	-	
Total Pitches		3

NOTE: a new GTAA has been published in June 2018.

HOU4: Position in 2018 Annual Monitoring Report as at 31st March 2018

Unauthorised Developments	-	
Total Pitches		6

In April 2014, Opinion Research Services published a Gypsy, Traveller and Travelling Showpeople Accommodation Assessment (GTAA) for Cheshire, Warrington and Halton.

The information above shows how Gypsy and Traveller sites have changed in Warrington in this monitoring period when compared to the position published in the GTAA in April 2014.

In this monitoring period, two unauthorised sites have now received permanent planning consent. These are the sites at Pennington Lane, Collins Green and the Two Acre site in Walton.

This indicator will look annually at the overall pitch provision in Warrington rather than previous AMRs which looked only at the amount of new pitch provision within the monitoring period.

HOU5: Affordable Housing Completions (2017/18)

HOU5	Completions	86
-------------	--------------------	-----------

In this monitoring period, there have been 86 affordable housing completions which shows an increase compared to the 72 reported in 2016/17. The majority of these completions were at Marsden Avenue, Westy.

Employment Development and Land Availability (April 2018)

The following indicators have been set for monitoring employment development. This is also followed by the findings and outcomes from the 2017 Economic Development Needs Assessment.

ED1: Total Amount of Completed Employment Floorspace (sqm) – by type

ED2: Total Amount of Completed Employment Floorspace (sqm) on Previously Developed Land (PDL) – by type

ED3: Total Amount of Employment Floorspace Under Construction (sqm) – by type

ED4: Employment Land Available (Hectares) – by type

ED5: Employment Land lost to other uses (Hectares)

		B1a	B1b	B1c	B2	B8	Mixed B Use	Total
ED1	Floorspace (sqm)	-	-	-	1,954	33,463	11,610	47,027
ED2	Floorspace (sqm)	-	-	-	1,954	33,463	11,610	47,027
	% Floorspace On PDL	-	-	-	100%	100%	100%	100%
ED3	Floorspace (sqm)	-	-	-	-	-	-	-
ED4	Hectares	0.24	-	-	-	0.25	100.51	101.00
ED5	Hectares							0.95

Key Findings for Employment Land Monitoring data for this AMR Period (1st April 2017 to 31st March 2018)

- Total completions in the plan period from 2006 up to 1st April 2018 stands at 188.20 Ha.
- No sites were under construction at the 1st April 2018.
- 17 sites had planning permission, totalling 101.00 ha of land in total.
- Whilst there is no specific target for new employment development on brownfield land, in the period 2006 to 2017, 91% of Warrington’s employment development has been on brownfield sites. 100% of the currently identified supply is brownfield.
- The average annual take up rate of land for development for employment uses between 2006 and 2018 was 14.48 Ha. per annum.
- Losses to other uses accounts for 0.95Ha.

Economic Development Needs Assessment (EDNA) 2016

The council commissioned an Economic Development Needs Assessment in 2016 with the following key aims:

- “Identify the future quantity of land or floorspace required for economic development uses including both the quantitative and qualitative needs for new development; and
- Provide an overview of the current profile of Warrington’s existing employment supply and an analysis of any gaps in the current land supply in terms of quality and location.”

The start point for the EDNA was the council’s employment land monitoring data, dated 31st March 2016 (previously known as the Employment Land Availability Statement). This indicated that there were 30 sites totalling 231.87 ha. This comprised a local supply of 82.24 ha in 23 sites (35.5 percent of the floorspace total), a strategic supply of 149.63 ha in seven sites at Omega (64.5 percent). However, consideration of both the local and strategic land supply suggested that these totals include areas of land which will not be brought forward for development, will be developed for non B-Class uses or where development completed prior to 31st March 2016.

Allowing for these revisions gave a revised supply total of **111.14 ha**, comprising:

- Local supply: 35.47 ha (31.9 percent)
- Strategic (Omega): 75.67 ha (68.1 percent).

In the case of the local supply, reductions reflected the fact that 5.40 ha in the west of 36c: Gemini 16, Westbrook has Outline/Reserved Matters consent for housing. Research also suggested the six other sites, totalling 27.16 ha, will not come forward in their present form or have defined proposals for non B-Class uses. Two sites – 369: Tanyard Farm Estate, Rushgreen Road, Lymm (1.66 ha) and 380: Barleycastle Trading Estate, Lyncastle Road, Appleton, Warrington (0.80 ha) – are proposing a redevelopment of existing premises with no net gain in B1, B2, B8 land or property. Finally, developers of 362: Former Dallam Day Centre, Dallam Lane (0.48 ha) report that development of ‘The Base’ incubation centre completed in January 2016. At Lingley Mere 15 A (g): Phase 2 - Lingley Mere (9.37 ha) is also now consented for housing.

At Omega, the original 149.63 ha supply was halved in 2016 including the consent for a housing-led scheme on Omega Phase 3 (51.36 ha) and completions of B2/B8 premises on 22.6 ha.

However, the following sites were likely to be developed to meet the exclusive needs of specific occupiers. They are not available to the broader market needs and thus can be considered as outside of Warrington’s available employment land supply:

- 363: Novelis UK, Latchford Locks, Thelwall Lane (0.30 ha) – Development is for the exclusive use of Novelis
- 366: Plot R, Lakeside Drive (0.26 ha) – Proposal is for expansion space for Phonak
- 370: Unit 910, Centre Park, Lakeside Drive (0.06 ha) – Proposal is for expansion space for Brevini UK
- Omega South - Plot 7D (3.20 ha) – The remaining land would only be developed as expansion space for the Plastic Omnium facility.
- Omega Phases 1 and 2 Remainder - 2.79 ha now has reserved matters consent for a 10,870 sqm supply chain centre, to be developed for the exclusive use of Domino’s Pizza. This reduces the available land here to 26.27 ha.

Therefore, scenarios are presented for Warrington’s land resource, considering the total supply initially and then adjusting it according to the various assumptions made above.

As a revised supply, Warrington had 111.14 ha of employment land in 2016, across 18 sites. If sites not available to the broader market needs are also excluded, that supply dropped to **104.53 ha** in 14 sites of which 34.85 ha in 11 sites represents the local supply and just over two thirds, 69.68 ha in three sites, represents the strategic (Omega) supply.

In this monitoring period, 7 new sites were added to the list of available sites consisting of mainly small scale extensions or developments with the exception of the new Time Square Council Office Development (0.48Ha - (B1a – 9,559sqm)). We have also removed 2 sites as completed at Omega 7C (Amazon UK) and at Kerfoot Street / Folly Lane (Storage Container Site). The site at Phase1/2 at Omega South has also reduced to take account of the new application for a distribution centre for Domino's Pizza.

Taking into account the new sites and those removed/amended, the current supply of employment land (2016) in Warrington stands at **102.69Ha**; a small decrease on last year of 1.84Ha.

Economic Development Needs Assessment (EDNA) Update 2018

To support the Council's Draft Local Plan Submission Version (2019), an update to the Council's 2016 EDNA has been commissioned and will be available to view as part of the Draft Local Plan Submission Version (2019) consultation, anticipated to be taking place early April 2019.

Retail Development in the Town Centre (April 2016)

The most recent Retail Study for Warrington is the Borough Wide Retail and Leisure Needs Assessment (White Young Green) which forms part of the evidence base for the Warrington Local Planning Framework. This updated the previous Retail Study from 2009 (partially updated in 2012). The Report and its appendices can be downloaded from:

https://www.warrington.gov.uk/info/200564/planning_policy/1905/evidence_base/11

RET1: New Retail Development in the Town Centre (sqm)

RET1	Floorspace (sqm)	0
-------------	-------------------------	----------

RET2: New Retail Development permitted outside defined centres (as listed in LPCS Policy SN4) (sqm)

RET2	No. Of Permissions	6
	Floorspace (sqm)	15,926.80

In total, 19 approvals for new retail development were granted across this monitoring period. Of these permissions, 6 were classed as out-of-centre.

These permissions were:

2017/30791 – Walton Hall Gardens – Change of use interpretation area to retail space (35sqm)

2017/30766 – St Michael’s Parish Hall car park, Burtonwood – Erection of an A1 convenience store with ATM (2,790sqm)

2017/31320 – Vacant land to rear of Sainsburys supermarket, Santa Rosa Boulevard, Great Sankey – Proposed GP Surgery, Pharmacy and parking (pharmacy – 104sqm)

2017/31824 – Morrisons, Greenalls Avenue, Latchford – Formation of a garden centre (64sqm)

2017/31822 – Morrisons, Greenalls Avenue, Latchford – Formation of a new Timpsons concession unit (37sqm)

2016/29425 – Land at and to the north of, Alban Retail Park, Winwick Road – Change of use of two existing units to retail (Use Class A1) and installation of mezzanine floors. Detailed consent for the completion of three retail units and the construction of three new retail units (Use Class A1) (12,897sqm)

RET3: Vacant Floorspace in the Town Centre (Units & Sqm Floorspace)

RET3	Units	121
	% of Total Units	23.5%
	Floorspace (sqm)	23,020
	% of Total Floorspace	17.1%

The updated Retail and Leisure Needs Assessment identified vacancy levels within Warrington Town Centre in November 2014. The study updated the annual retail survey undertaken by Experian GOAD. The figures returned above show that the Town Centre continues to show high levels of vacant units which have increased since 2012 from 19.3% to 23.5% of the total units in the Town Centre. The study also identified that 80% of the vacant units had a floorspace of 200 sqm or lower. These figures have not been updated in this monitoring period.

Hot Food Takeaway SPD

HFT1: A5 Planning Applications Approved with reference to the Hot Food Takeaway SPD

HFT1	No. of Planning Permissions	2
-------------	------------------------------------	----------

In the monitoring period of this AMR, 7 applications were received for A5 uses. Of these applications, two were withdrawn, three were refused with the remaining applications gaining planning permission. In the cases of approval, the Hot Food Takeaway SPD was specifically referred to in the planning officer's reports in determining the applications.

Open Space

OS1: Total Amount of Open Space (Hectares)

OS2: Total Amount of Equipped Play Open Space (Sites & Hectares)

OS3: Total Amount of Informal Play Open Space (Sites & Hectares)

OS4: Total Amount of Parks & Gardens Open Space (Sites & Hectares)

In 2016, the Council published an updated 'Open Space Audit', a position statement that provided a snapshot of the headline findings from the open space and recreation audit as at 1st April 2015. The table below shows the headline figures from the new evidence and the previous published Audit from 2012.

		Total (2014/15 Period) (2012 Audit)	Total (2015/16 Period) (2015 Audit)
OS1	Hectares	1,725	1,876
OS2	Sites	165	130
	Hectares	10	11
OS3	Sites	231	252
	Hectares	102	92
OS4	Sites	81	121
	Hectares	392	432

The large increase in identified open space (151 hectares between 2012 and 2015) has mainly come from the inclusion of several golf courses in the outdoor sports category that were not previously included in the audit.

The results show that whilst the number of equipped play sites reduced between 2012 and 2015, the actual area of these sites has increased from 10 to 11 hectares. Informal play areas saw a reduction in the site areas but an increase in the number of sites. Sites classified as Parks and Gardens saw an increase in both number and size over the three year period.

These figures have not been updated in this monitoring period but it is worth noting that planning permissions have been granted since the 2015 audit which, have included the requirement for open space that has now been provided. These will be picked up in the next published open space survey.

Environmental Quality

This section looks at various statistics affecting environmental quality in the Borough.

EQ1: Planning Permissions granted contrary to Environment Agency advice

EQ1	No. Of Planning Permissions	0
------------	------------------------------------	----------

In this monitoring period, there were no applications granted contrary to advice from the Environment Agency.

EQ2: Changes in Areas of Biodiversity Importance

EQ2	+/- Change in Area (Hectares)	0
------------	--------------------------------------	----------

In this monitoring period, there were no changes to area of biodiversity importance (these include Local Wildlife Sites, Local Nature Reserves, SSSIs and Special Areas of Conservation).

EQ3: Renewable Energy Generation – Approved Schemes

EQ3	No. of Approved Schemes	2
------------	--------------------------------	----------

The application of the second part of the adopted Local Plan Core Strategy policy (QE1) has ceased to be applied in relation to residential development during the previous monitoring period, since the publication of the new Planning Obligations SPD January 2017. The second part of Policy QE1 sought energy efficient development in line with the energy hierarchy and reductions in CO₂ emissions above Part L of the current Building Regulations (at the time applications were submitted) for all types of development. Going forward it will only be able to be applied to commercial development due to amendments to the Planning and Energy Act 2008 (implemented as part of the Government's Review of the Housing Standards Review through the Deregulation Bill 2015).

In terms of renewable energy provision as part of development schemes, the Council granted planning permission for **one** development scheme that included condition(s) relating to energy efficiency and /or elements of decentralised and renewable or low carbon energy generation within the monitoring period. This scheme was required to achieve 10% of its total predicted energy demand from decentralised and renewable or low carbon sources in line with the target in Policy QE1 but has not commenced development yet.

There has been **one** application for the installation of renewable energy schemes to an existing building, which was for the installation of solar panels, to an existing warehouse.

There have been **no** applications for large scale renewable energy schemes (Solar farms/wind turbines) during this monitoring period.

Whilst, not an energy generating scheme it is worth noting that there was an application for an Energy Storage Facility (including substations, transformer and battery container).

EQ4: Changes to Heritage Assets (Statutory Listed Buildings)

EQ4	No. Of Listed Buildings	375
	+/- Change since 2015 AMR	0

In this monitoring period, there have been no new additions to the Statutory Listed Buildings register by Historic England. There have also been no delistings of buildings.

EQ5: Changes to Heritage Assets (Conservation Areas)

EQ5	No. of Conservation Areas	16
	+/- Change since 2015 AMR	0
	Area (Hectares)	191.5
	+/- Change since 2015 AMR	0

In this monitoring period, there have been no changes to the existing Conservation Areas in Warrington and there have also been no new Conservation Area designations.

Minerals

MIN1: Production of Primary Land Won Aggregates

The NPPF requires Mineral Planning Authorities (MPAs) to produce an annual Local Aggregate Assessment (LAA) that provides an assessment of the demand for and supply of aggregates in the MPA area. The Council is working jointly with the 10 Greater Manchester Authorities, the 5 Merseyside authorities and Halton in preparing a joint LAA. The draft version of the Joint Local Aggregate Assessments for Gt Manchester, Merseyside, Halton and Warrington 2017 provide aggregated figures on a sub-regional basis only. Warrington is grouped together with the Greater Manchester and Merseyside authorities (including Halton) for these monitoring purposes as figures cannot be assigned to individual boroughs for reasons of confidentiality. **The figures in the draft version of the LAA (2017) were reported last year and there are no more up-to-date figures available currently. Consequently the same figures have been reported again (albeit that they are from the final published version of the LAA (2017), which was only approved in Jan 2018.**

In the Draft LAA (2017), the landbank for crushed rock aggregate has decreased marginally from 20.43 million tonnes in 2015 to 19.59 million tonnes as at 31st December 2016. This is sufficient to provide for 31.1 years based on the average production rate over the previous 10 years, which is above the 10 year minimum landbank required by NPPF.

Reserves of land-won sand and gravel also fell in 2016 because one quarry has been identified as closed for primary aggregate extraction, whilst another has been worked out (although an application for an extension of time and area at this quarry is pending). Therefore, unless a new permission is granted, the landbank for sand and gravel in the sub-region is under the minimum of 7 years set out in NPPF.

Landbank for crushed rock and sand and gravel in the sub-region based on the sub-regional apportionment from National and Regional Guidelines for Aggregate Provision 2005-2020

	Landbank as at 31.12.2014	Permitted reserves as at 31.12.2015	Annual apportionment requirement 2005 – 2020	Landbank as at 31.12.2015
Crushed Rock	16.5 years	20.43mt	1.32 mt	15.5 years
Sand and gravel	9.0years	3.70 mt	0.43 mt	8.6 years

Source: LAA 2017 (published Jan 2018)

The report also compares the annual apportionment requirements with 10 year average sales data as an alternative to assessing forward supply. It also shows the 3-year rolling average of sales which demonstrates the trend in sales more than the 10 year data.

Land won sand and gravel sales in the sub region between 2007 – 2016 (million tonnes)

Year	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016
Sales	0.3	0.44	0.37	0.22	0.24	0.24	0.24	0.26	0.31	0.25

Source: LAA 2017 (published Jan 2018)

Crushed rock sales in the sub region between 2007 – 2016 (million tonnes)

Year	2007	2008	2009	2010	2011	2012	2013	2014	2015	2016
Sales	1.1	0.69	0.30	0.29	0.36	0.81	0.42	0.69	0.79	0.87

Source: LAA 2017 (published Jan 2018)

The sales figure for 2016 is taken from planning application data to maintain confidentiality

The following table sets out the forecast based on the 10-year sales data. It also shows the 3-year rolling average of sales which demonstrates the trend in sales more than the 10 year data.

Forecast based on 10-year supply

	Aggregate	
	Sand and Gravel	Crushed Rock
10 year average sales (2007 to 2016)	0.29Mt	0.63Mt
3-Year rolling average of sales	0.27Mt	0.78Mt
Total Requirement (2016 to 2031)	4.35Mt	9.45Mt
Permitted reserves as at 31/12/2016	c.	19.59Mt
Landbank as at 31/12/2015	5Yrs (based on existing planning permission)	31.1Yrs

The 10-year average figure for sand and gravel is 0.29 million tonnes, with an average for the last three year period being 0.27 million tonnes. The 10-year average figure for crushed rock is 0.63 million tonnes, with the average for the last three year period being 0.78 million tonnes.

The 10-year average figure for sand and gravel is 0.29 million tonnes. This is down 0.14 million tonnes on the 2005 – 2020 annual apportionment requirement of 0.43 million tonnes.

The 10-year average figure for crushed rock is 0.63 million tonnes. This is down 0.69 million tonnes on the 2005 – 2020 annual apportionment requirement of 1.32 million tonnes.

MIN2: Construction, Demolition and Excavation Waste

Data on secondary and recycled aggregate production and use is still variable and incomplete. This is because, while some sites operate under licence and can be monitored, much recycling and re-use occurs on individual construction sites, is temporary in nature and does not produce data. The Environment Agency's database 'Waste Data Interrogator' provides the best available information. The table below shows the amount of CD&E waste produced and handled at sites in the sub-region in 2017. However, the totals in this table will not reflect the true amount of CD&E waste produced and managed in the sub-region because it only shows the waste that moves through licenced sites and does not include waste that is reused on site or disposed of at exempt facilities.

Construction, Demolition and Excavation Waste Produced and Handled in the Sub-region, 2016 (tonnes)

LA Area in Sub-region	Produced	Handled
Greater Manchester	2,720,652	3,152,362
Merseyside with Halton	590,541	1,075,822
Warrington	180,526	606,913
Total	3,491,720	4,835,097

Source: Environment Agency Waste Data Interrogator 2017 (NW AWP AMR 2017)

MIN3: Production of Secondary / Recycled Aggregates

The figures on alternative arisings in the North West are carried forward from the last AMR as these are still the most up-to-date available. They were collected as part of the AM2008 Annual Monitoring Survey for the period 1st January 2008 to 31st December 2008 in the North West.

Alternatives Arisings in North West 2008 (million tonnes)

Material	Cheshire	Cumbria	Lancashire	G'Manchester, Halton, Merseyside & Warrington	Total NW England
Pulverised Fuel Ash	-	-	-	0.13 mt	0.13 mt
Furnace Bottom Ash	-	-	-	0.01 mt	0.01 mt
Slate Waste	-	0.29 mt	-	-	0.29 mt
Total Alternatives	-	0.29 mt	-	0.14 mt	0.43 mt

The Greater Manchester, Merseyside, Halton and Warrington sub-region accounted for all of the arisings of Pulverised Fuel Ash (PFA) and Furnace Bottom Ash (FBA) produced in the NW Region. The total arisings of PFA has fallen by 31% since 2005, from 0.42mt to 0.13mt in 2008. Total arisings of FBA has also fallen dramatically since 2005 by 87.5%, from 0.08mt to 0.01mt in 2008. There were no arisings of slate waste in the sub-region. Cumbria being the only sub-region to produce any arisings of this material during this period. The arisings of slate waste has increased by 31%, from 0.20mt in 2005 to 0.29mt in 2008.

Waste

WST1: Capacity of new waste management facilities by WPA

WST2: Amount of municipal waste arising and managed by management type by WPA

There have been no applications for waste management facilities approved in this monitoring period.

WST2	Landfill	Incineration with Energy From Waste (EfW)	Incineration without Energy From Waste (EfW)	Recycled/Composted	Other	Total Waste Arisings
Amount of waste arisings in tonnes	39,894	14,257	0	37,587	0	91,738

The 2017/18 monitoring period saw a decrease of 3,926 tonnes in the total municipal waste arisings when compared to the previous monitoring period. This continues the previous downward trend in the total municipal waste arisings after the slight increase the year before last.

Whilst, in general terms the 2017/18 monitoring period saw a further reduction in the total amount of municipal waste arisings when compared to the previous monitoring period (down from 95,664 to 91,738 tonnes), there has been significant increases in the amount of waste being landfilled when compared to the previous monitoring period (up from 2,396 to 39,894 tonnes). This has resulted in consequential reductions in the amount of waste being recycled (down from 53,471 to 37,587 tonnes) and incinerated for energy production (down from 39,797 to 14,257 tonnes). These changes have been due to contractual issues with the Council's waste disposal contractor.

S106 Monitoring

This monitoring period (1st April 2017 to 31st March 2018) saw 6 new Section 106 Agreements signed and 3 new unilateral undertakings totalling £8,996,542.60. This includes the three Homes England sites at Petwerspear, Grappenhall Heyes and Land bounded by Green Lane and Dipping Brook Avenue, Appleton (Appleton Cross) totalling a maximum contribution value of £8,423,171.60.

This monitoring period also saw the receipt of £2,972,384.00 from four different developments including Gemini 16, Dawson House, Rhinewood Hotel and the majority from Zone 3 to 6 Omega South, for highways improvements (£1,520,000.00).

The situation of all ongoing Section 106 Agreements as at the end of Quarter 1 (June 2018) is appended to this AMR.

Applications Monitoring

In this monitoring period, the Council decided 1,560 planning applications. Of these, 1,358 (87.1 %) were approved and 202 (12.9%) were refused. A further 144 applications were withdrawn for various reasons and a further 388 were either cancelled before determination or were judged that planning permission was not required.

Statistics on determination of planning applications showed:

- 100% of 'major' applications were decided within 13 weeks.
- 90.5% of 'minor' or 'other' applications were decided within 8 weeks.

This monitoring period also saw the determination of 52 planning appeals with 17 (33%) being upheld and the remaining 35 (67%) being overturned.

6. IDP Update (Interim CIL Infrastructure Update)

The Infrastructure Delivery Plan (IDP) and the associated schedules form part of a series of evidence based documents that underpin Warrington's Local Plan Core Strategy.

The IDP schedule aims to provide a comprehensive range of programmes which impact on spatial planning and aid all parties in identifying and prioritising infrastructure provision as part of an integrated approach to planning and infrastructure development. It is however recognised that funding arrangements and priorities of individual stakeholders will change and therefore the IDP schedule is a living evolving document that should be reviewed and monitored regularly in order to ensure that it includes the most up to date information.

The Council last reviewed the existing IDP schedule during the consultation on the CIL Preliminary Draft Charging Schedule and this provides the most up to date information in relation to infrastructure priorities and funding. The information has been drawn from a number of stakeholders and can be found below.

The IDP will be updated in support of the review of the Local Plan.

<https://www.warrington.gov.uk/info/200564/planning-policy/1903/local-plan/5>

7. Duty to Co-operate

The 'Duty to Co-operate' is a legal requirement as part of the Local Plan preparation process. This 'Duty' was introduced by the Localism Act which came into effect in November 2011. Further advice on the 'Duty' is given in the National Planning Policy Framework (NPPF 2) which was published on July 24th 2018; the Town and Country Planning (Local Planning) (England) Regulations 2012 which came into effect on the 6th April 2012 and the National Planning Practice Guidance which was issued on 6th March 2014.

The Duty to Co-operate requires local planning authorities and other bodies to co-operate with each other to address 'strategic issues' relevant to their areas. Within the context of the 'Duty', 'strategic' issues are interpreted as those which are larger than local (cross boundary) and which cannot therefore be addressed by a single local planning authority working alone. The priority given to any 'strategic' issues will evidently depend on the local circumstances and in some instances there may be few or genuinely no such issues. This may include:

- The provision for new housing across a wider housing area
- The provision of major retail, leisure, industrial and other economic development
- The provision of infrastructure; and
- The protection and enhancement of the natural and historic environment

The Town and Country Planning (Local Planning) (England) Regulations 2012 usefully clarifies the public bodies which the duty to co-operate also covers. This includes:

- Environment Agency
- Historic England
- Natural England
- Civil Aviation Authority
- Homes England
- Clinical Care Commissioning Groups
- Office of the Rail Regulator
- Highways England
- Integrated Transport authorities
- Highways Authorities
- Marine Management Organisation
- Local Enterprise Partnership

The Council has continued to undertake extensive and proactive engagement with adjoining local authorities, minerals and waste authorities and other public organisations on key strategic issues that affect the area and wider sub-region. This has included a high level of co-operation throughout the preparation of the Preferred Development Option (PDO 2017), and the emerging Draft Local Plan Submission Version. This commitment not only stems from the requirement of the "duty to co-operate" but is also enshrined within the Council's Statement for Community Involvement.

Amendments to the National Planning Policy Framework (2012), as set out in the revised NPPF (2018), require local authorities, when discharging the 'Duty to Co-operate' requirement through the Plan making process, to produce one or more Statements of Common Ground (SoCG) with identified authorities.

As part of this new 'Duty', Warrington Borough Council has been selected along with Cheshire East Borough Council and Cheshire West and Chester Borough Council as 'pilot authorities' by the Ministry of Housing, Communities & Local Government (MHCLG) to produce the new style Statement of Common Ground.

Although the SoCG has been prepared working jointly with Cheshire East Council and Cheshire West and Chester Council the statement only covers the administrative area of Warrington Borough Council. This is considered to be appropriate given the varied and functional relationships it has with a number of authorities and the fact that WBC is not preparing any joint statutory Plans.

The SoCG outlines the geographical area covered, the key strategic issues it addresses, the plan making authorities responsible for joint working and any additional signatories, and the management and governance arrangements for updating and agreeing the completed statement, in line with the guidance provided in the draft Planning Practice Guidance.

The SoCG will be made publically available as part of the evidence base to support the Draft Local Plan Submission Version consultation, anticipated to commence in early April 2019.

Affordable Housing Contributions
