To: Local Plan
Subject: objection to local plan

To whom it may concern,

I would like to confirm my objection to the local plan due to the plan not being Sound.

the reasons for my objection include;

- the plans housing numbers are too high compared to the official population growth predictions.
- there is no justification to release the green belt for development. release of green belt is not required to accommodate the predicted population growth.
- there are no clear plans for proposed highways/crossings to accommodate the new developments.
- council cannot promise on new schools/medical centers etc which would be essential upon completion of this development.
- the council plan does not address the major concerns regarding air pollution to the area.

kind regards,

Donna Teague
