

Mrs Lynn Harris

10.6.19

To Warrington Borough Council

I am writing to protest against your proposed development in the south Warrington area.

The development is unsound for the following reasons.

- ① The housing numbers are too high and are based on unrealistic population growth thus there is no justification for releasing green belt land.  
The loss of our green belt is irrevocable and to plan 20 years ahead is unrealistic as brown field sites will become available.
- ② Taking the geography of the area into account we will need new roads, motorway junctions and canal crossings given the amount of housing and industrial development you plan to build.
- ③ Congestion and pollution will increase in an already highly polluted area. It will decimate our wildlife and destroy forever a beautiful rural landscape.  
I appreciate new homes are required how many of these will be affordable for first time buyers.

Shame on you Warrington Borough Council  
you have failed to get Peel Holdings to maintain  
our bridges there are no public toilets in  
Stockton Heath and you are planning to build  
thousands of houses and still want to close the  
only refuse centre in the area.  
As a lifelong [REDACTED] voter you have lost my vote  
along with my confidence.

The avaricious developers have set their eyes  
on our green belt which will command the most  
profit. I wish they would disappear into the sunset  
over our beautiful intact green belt.

Not in my NAME - Please listen to the people.

Yours sincerely

Lynn Harris
