

Tel: [REDACTED]

5th June 2019.

Dear Sir / Madam,

I am writing to you, to object to the proposal, of the council to build 945 houses a year, in the South Warrington area. I am not against change, but this plan is preposterous.

South Warrington is a beautiful area, and its beauty needs to be protected. The plans for housing needs very careful, ~~and~~ and sensible consideration. The legislation for green belt land, is paramount to the welfare of the people of Warrington. It should not be touched, and it does not need to be.

The housing numbers are unrealistic. Medical facilities are stretched beyond the limit, at the moment. The roads are congested at peak times and especially at pinch points in Stockton Heath, and over bridges at canal crossings, now. With the population, increasing at such a massive rate. The roads would be

permanently gridlocked.

The subsequent air pollution, would be hazardous. Extra traffic such as this, would worsen pollution, and the open countryside, which would have increased air circulation, would be already lost.

No, these plans, as they are, should definitely NOT, go ahead. It would be foolhardy and completely irresponsible, and it would be just asking for a major catastrophe, which would be irreversible.

Why not start by using the centre of Warrington, right in the centre there is a derelict building, with boarded windows?

There are so many closed down shops, which could be converted into comfortable housing.

The size of rooms needs to be considered, they need to be big enough, so that people will be happy to live there, their whole life, and they are not desperate to move.

Yours sincerely.

Mrs. S. Nardopden.

P.S. We are a community who care about each other. Please do not herd people like cattle, it will cause crime and destroy the uniqueness, of villages and the community.
