

Warrington Council,

name is Elizabeth Mankinson and I am [REDACTED]
believe you want to build on these lovely fields and can
just say I am gully against this so don't just scrunch
is letter up read what I have to say. I think building
on fields would be terrible as think of all Farmers
losing their jobs and that will lead onto less food
So prices will go up in shops and poor or not rich will
starve.

Secondly, my grandad owns the land you want to build on
and you are being very cruel and if building work goes
ahead. We live [REDACTED] you [REDACTED] want to knock down our house.
THIS IS NOT RIGHT

Thirdly, this will increase pollution and animals
dying.

Fourthly

Fourthly ~~In our field there is and~~ at my Granny
and Granddads Garden you want to build a high
Speed train. This isn't right as it will increase
pollution and there are cows in that field
So if you build a high speed train where
the cows go?
