Hi

Would like to register comments about proposed local development in South Warrington.

As a local resident i strongly oppose the development based on following difficulties

This is proposed on green belt land - meant to be protected, further devastation to preserved area, habitat for local wildlife already compromised.

There is no local infrastructure to support this development, further congestion on roads, bottle neck of traffics at Cat and Lion lights, lack of school spaces, room at GP surgeries etc

This is not a viable option and will continue to strongly object to this.

regards

F Hannam [REDACTED]
