---

I am writing to object to the proposals set out by Warrington Council which will completely destroy the beautiful area in which we residents of Appleton/Grappenhall and surrounding areas have chosen to live in.

I have been researching other people's thoughts and concerns about this ridiculous proposal and have come across the enclosed document sent to the council by someone who has clearly carried out a great deal of groundwork.

The attached copy of this document fully endorses my own thoughts on this issue and has been put together comprehensively and factually and without emotion.

I [REDACTED] have only just discovered that a dual carriageway is being proposed which will pass within yards of the houses in our quiet leafy lane. I was also concerned to find out that not one of the residents I have spoken with in the lane was aware of this planned "strategic road".

How can Warrington Council dream up such a scheme that takes a dual carriageway which will carry much traffic and heavy lorries through a leafy suburb.

This has to be stopped and the residents of [REDACTED] will be looking closely at the negative impact on health which will be caused by air and noise pollution from this heavy traffic.

Diane Nuttall
