Local plan south warrington
02 June 2019 18:39:35

To whom it may concern

I am writing to voice my immense concerns regarding the plans involving the south of Warrington. I am a lifelong resident [REDACTED]. Your local plan affects this area far more than any other area in the town. It will be a crying shame if we lose this amount of green belt, which needs protecting for everyone in our town to enjoy. I am also very concerned over the infrastructure, which already cannot cope with the traffic volumes of the town. The actual road I live on is a disgrace. I work approximately 3 miles away, and it can take me up to 40 minutes to either get to, or home from work. If the swing bridges go off, the whole of Warrington suffers. The houses already built in the past have contributed to the state of our roads, because the infrastructure was not updated then. Your plan is going to make things much worse. I am well aware you have targets, but the amount of housing you intend to build in the south of Warrington needs to be greatly reduced. I hope you take my thoughts into consideration, along with many others from this area.

Yours faithfully

J A Nestor
