---

I have examined the proposed long term plan presented by the Council.

I live in the [REDACTED] area of the town and consider the plan has major flaws and shows little concern for the peaceful existence of the local population.

There is already congestion on both roads leading to the motorway junctions and to allow significant more heavy vehicles to use these roads leading to

The motorways will only lead to grid lock and a higher level of pollution. A new road connecting the two motorway junctions will go through the middle of large

Housing estates with heavy vehicles using it at all times of the day and night. The noise and air pollution would be significantly increased causing mental and physical Health issues to the local population.

There is no need for this expansion in Warrington, its growth over the last twenty years is significantly higher than the majority of the Country. The only reason for this

Plan is for the childish obsession of the Council to achieve city status. The town already lies half way between to major cities, no more than thirty miles from either

Percy Beckley

Resident at [REDACTED]
