Subject: Proposed development of further properties on green belt south Warrington.
Date: 04 June 2019 10:28:20

Dear Sir / Madam,

I am strongly opposed to the proposal to build another 5000 houses in the Appleton/Grappenhall areas. This is on top of the 1000 houses already granted planning permission. The infrastructure is not in place to support the additional number of people that would be brought to this area. The road traffic going through Stockton Heath to get to Warrington would be far worse than it is now. The schools, doctors etc would be stretched to breaking point. In addition to this the desecration of the existing green belt would be dreadful. I therefore conclude that the plan is NOT sound.

Regards

Anthony Bullock [REDACTED]
