Subject: Local plan for Warrington
Date: 05 June 2019 15:29:46

Having resided in Warrington South for [REDACTED] years, I am utterly appalled by the above proposal and strongly object to this development on multiple grounds. The area I live in [REDACTED] has over the years retained its rural character and any plans to develop surrounding greenbelt land would totally destroy the existing peaceful nature. Future plans which involve increasing traffic levels regardless of new road infrastructures is only adding to existing traffic problems and will only serve to compound the situation.

Key points to my objection:

1. Plan period excessively long
2. Brownfield land should be utilised before greenbelt even if this reduces housing numbers
3. Transport infrastructure needs addressing now and should be a priority not the expansion program
4. Logistics and distribution are 24hr, 7 days a week and 365 days a year operations which will not only add to road congestion but ruin the idyllic nature of the area
5. Local councils decide new housing number not government lead
6. Increased pollution levels due to more vehicles in an already "high pollution area"

THIS PLAN SHOULD NOT BE APPROVED

Regards

Mr S. Lewis
