Draft Local Plan (as a whole)

None of the above

3. Do you consider the Draft Local Plan is: Please select one option in each row.

	Yes	No
Legally Compliant	X	
Sound		X
Compliant with the Duty to Co-operate	X	

4. If you have answered 'No' to any of the options in the above question then please give details in the box below of why you consider the Draft Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.

There is no justification for releasing Greenbelt to accommodate a 'predicted' population growth. Especially as this is a 20 year plan. The infrastructure needs to service this grand plan could never be realised and I see no clear routes proposed for highways, link roads, etc., nor a outline plan as to how infrastructure such as this could / would be funded. In the infrastructure needs I also see no commitment to delivering the new schools, healthcare facilities, shopping areas etc. There is also no indication of how air pollution would be addressed, and with this being such an important topic these days, I would suggest there must be!
All in all, this grandiose scheme is fundamentally flawed and undeliverable. and 20 years way too far ahead to be planning on this scale.

5. If you answered 'Yes' to any of the options in question 3 then please give details in the box below the reasons why you support the legal compliance or soundness of the Draft Local Plan or its compliance with the duty to co-operate. Please be as precise as possible.

I must assume that you have conducted this local plan review considering full legal compliance and a duty to co-operate.

6. Please set out what modification(s) you consider necessary to make the Draft Local Plan legally compliant or sound, having regard to the test you have identified above where this relates to soundness. (NB please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It would be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Protection of green belt and development of brown belt to ensure the well being of our natural habitat and all local residents.
The reduction in scale to allow for more sustainable developments that have a competent and complete infrastructure plan already inserted and with funding available.
Consideration throughout on air pollution and the negative effects to health for local residents.

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination? Please select one option.

No, I do not wish to participate at the oral examination
