To whom it may concern.

Please register this email as my objection to the proposed consumption of Greenbelt in South Warrington for housing and industrial use.

In my opinion the plans are not sufficiently supported by environmental loss mitigation, and there is insufficient recognition of the usage increase on the local infrastructure which is already over stretched. As such these plans are unsound and undeliverable.

There is simply no justification for destroying Greenbelt when the Warrington area is surrounded by former industrial brownfield sites. You should be ashamed of yourselves.
