	Yes	No
Legally Compliant		
Sound		X
Compliant with the Duty to Co-operate		

4. If you have answered 'No' to any of the options in the above question then please give details in the box below of why you consider the Draft Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.

Release of large quantity of green belt land is not necessary and unlikely to allow affordable homes to be built.
Roads, especially A49, is often gridlocked with cars and HGV's. Extra housing brings extra vehicles.
Schools, medical centres already busy. The housing will be built long before new facilities are in place.
Shopping areas where they exist have limited parking spaces and buses only run hourly during the working day in Appleton, Stretton and Hatton,
Air pollution will increase with static or slow moving traffic and less green belt to absorb the fumes.

6. Please set out what modification(s) you consider necessary to make the Draft Local Plan legally compliant or sound, having regard to the test you have identified above where this relates to soundness. (NB please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It would be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

Preserve the green belt.
Reduce HGV's travelling through villages especially Stockton Heath.
Revisit the number of homes actually needed instead of the vast number thought to be required.
Insist that extra facilities , schools medical centres, play areas, will be in place for the housing which has been granted planning permission and that it be merely a starter for what will be required if any more are built.

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination? Please select one option.
