- \* The non consideration of the use of brown field sites such as Fiddlers Ferry in favour of the loss of Green belt which is preferable to developers
- \* The environmental and ecological impact has not been properly assessed
- \* The road network infrastructure has still not been addressed. We are reliant on three ship canal crossings from the SE of the town which the plan still relies on. These are already overstretched particularly when the motorways are congested. The building of the significant quantity of houses in this SE are of the town will only increase the traffic issue and add to the air pollution.
- \* Irrecoverable harm to the character and distinctive nature of our villages

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination? Please select one option.
