[REDACTED]

Dear sir

I would like to register my objection to the local plan. My reasons for objecting are varied but the main reason is the current infrastructure cannot cope with anymore houses being built.

Warrington hospital is bursting at the seams, so overcrowded. How on earth can it cope with the proposed number of houses? Yes a new hospital is being built but that should be built first.

Secondly the traffic on south Warrington is horrendous. If it's not the motorway closed so traffic diverting through town it's the bridges going off. I regularly have to cross Warrington to visit elderly parents and it can take anything from 15 mins to one hour depending on the above scenarios. Never mind the increase in pollution. I was horrified to recently discover Warrington is one of the most air polluted towns in the country. Why on earth would you consider adding to that and contributing to more needless deaths.

I'm confused too as to why it's suggested that green belt land can be built on, I thought that was the whole point of designating it as such so it was protected except for exceptional circumstances- what are they in this case?

Thank you

Yours sincerely

Patricia Fraser
