PART B - Representation Form 1

1. To which part of the Local Plan does this representation relate? From the drop down list please select one option.

Exceptional Circumstances for Green Belt release

2. Does your comment relate to a specific paragraph (s) or policy sub-number (s)? Please select one option.

None of the above

3. Do you consider the Draft Local Plan is: Please select one option in each row.

	Yes	No
Legally Compliant		X
Sound		X
Compliant with the Duty to Co-operate		X

4. If you have answered 'No' to any of the options in the above question then please give details in the box below of why you consider the Draft Local Plan is not legally compliant or is unsound or fails to comply with the duty to co-operate. Please be as precise as possible.

At PDO stage 4.5k people objected and yet none of their comments were taken on board for this plan. None of the plan shows any exceptional circumstances for the loss of greenbelt. There are still sufficient brownfield sites for any distribution centres and omega still has empty sites. Fiddlers Ferry power station will provide plenty of capacity for such sites and housing. The amount of housing proposed has been inflated enormously and it goes ahead will destroy all of the villages in south warrington. It would also increase congestion in an area that already has terrible congestion when there is a problem on the motorway. It will also along with any distribution centres increase pollution in an area highlighted by the WHO as having dangerous levels of pollution. All building would destroy wildlife habitats at a time when we require the greenbelt for health as we exercise there which improves mental health.

6. Please set out what modification(s) you consider necessary to make the Draft Local Plan legally compliant or sound, having regard to the test you have identified above where this relates to soundness. (NB please note that any non-compliance with the duty to co-operate is incapable of modification at examination). You will need to say why this modification will make the Local Plan legally compliant or sound. It would be helpful if you are able to put forward your suggested revised wording of any policy or text. Please be as precise as possible.

All distribution sites and housing must be on brownfield sites before any greenbelt should be considered. The amount of housing needs to be reduced significantly. No distribution centres at all in the south until those already built are actually being utilised. We need more greenbelt not less if we are to achieve a zero carbon status as proposed by the government.

7. If your representation is seeking a modification, do you consider it necessary to participate at the oral part of the examination? Please select one option.

No, I do not wish to participate at the oral examination
