

[REDACTED]

---

Dear Sir/Madam.

We are writing to oppose the plans which would see the destruction of many parts of green belt land in the areas discussed. If this was to go ahead vast numbers of wildlife would be affected including bats, birds, foxes and many other inhabitants.

Another area which concerns us would be the vast amount of traffic which would increase in Grapenhall, Thelwall, Latchford and other surrounding areas. This would then see a higher volume of traffic and pollution.

I trust you will take into consideration the feelings of the residents in these areas, who value and nurture the wildlife around them.

Yours faithfully
