

[REDACTED]

---

Please note that I firmly believe the the drive to get 'City' status will condemn residents to totally unacceptable traffic problems. The river Mersey and the Manchester Ship Canal gives Warrington huge traffic problems due to the proximity of the M6.

A Motorway 'ring road' will help but excessive tolls or problems on any of these roads will inevitably exacerbate a serious traffic flow problem.

I believe that the plan should specifically address the need for additional schools and medical facilities in addition to transport plans, backed up by studies of the impact of such a large increase of population and vehicles.

Yours sincerely
