

[REDACTED]

---

To whom it may concern,

I am deeply concerned about the proposal to build the garden city in south Warrington and the associated infrastructure. The plan to build on greenbelt land will impact on the environment and all that live in it.

[REDACTED] I am devastated at the prospect of such a large scale development happening on my doorstep, in the community where I have lived and brought up my family. [REDACTED] have remained in the area and we are all absolutely heart-broken at the prospect of our close-knit community being altered in this way.

Most disturbingly, the thought of a raised carriage-way, as some plans suggest, being constructed [REDACTED] is completely inconceivable! We have paid the price to live in this part of town and now, to be told that our house could drop in value considerably is simply unnecessary and unfair.

I sincerely hope that our worries and concerns are being taken seriously and that residents, such as myself, will be listened to over the coming months as the consultations get underway.
