My letter:  
To whom it may concern

I strongly object to the plans being proposed to build on the green belt, moore nature reserve and on the penine way. The impact this will have on wildlife and the congestion it will bring to an already congested area is the main reason I am objecting. South Warrington currently is a desirable area to live with its semi rural feel and lovely villages. Building all this many houses will ruin this lovely area of Warrington. I trust you will take my objections into account.

Regards
