

[REDACTED]

---

I am a resident of Lymm and have been all my life

I have slowly watched the village lose its fields for housing estate and it saddens me that more fields are being removed from green belt status to make way for houses. This village is no longer what it used to be the schools are over crowded and education is suffering. The roads are rammed with cars and we don't even have a bank or post office. Please don't take our land or trees and turn Lymm into a concrete jungle.
