

[REDACTED]

---

Dear Sirs/Madam

I wish to completely and utterly oppose the proposed Preferred Development Option!

We are a town with some amazing and beautiful villages with a vast array of wildlife. My child feels safe to play out. I have recently moved [REDACTED] disused railway track which has an abundance of wildlife. WBC together with Peel are looking to destroy this natural beauty to build a monstrosity of a highway in its place. Shame on WBC. Anything to line your own pockets and Peels!!! How do you sleep at night.?! The lives and homes we have worked so hard for. I was born and bred in south Warrington and have over the years watched as more of our wonderful greenbelt has been eaten up by developers but this time you have gone a step too far !!

Shocking communication from WBC at the beginning of the so called consultation in the middle of holiday season. Poorly ran consultation meetings where your representatives blatantly contradicted each other!!

Latchford East Councillor Mundry has shown no support towards his constituents as he has a massive ulterior motive being on the planning committee. I call on Mr Mundry to step down immediately so we can have someone that actually cares about the people of Latchford and will therefore represent us fairly!!

Shocked and appalled at WBC. You're about to ruin the lives of the majority in south Warrington and our children's future !!

I will continue to fight to get this stopped!!

Regards
