

[REDACTED]

hello to whom it may concern as a resident of Thelwall living in what i consider a to be a decent area [REDACTED] i am deeply concerned about the development in this area i wish to lodge my utmost opposition to this development as it does not seem to me to make sense why the hell are you planning on pulling down already housing that are good for the area to make way for this colossal amount of housing that is not going to benefit the people of Warrington the people that buy these houses are not going to be from this area they will be commuters from out of town there is nothing for the young of this area that will benefit our young because these houses will be out of their price range what are the council trying to do spending daft money and spoiling the area by destroying more green belt it is ludicrous come on think again i have no objection to the alteration to the road system but no more houses not at that scale anyway hope you really think about this scheme before you even go ahead [REDACTED]
