

[REDACTED]

---

Dear Council,

I am writing in support of and as one the concerned residents against the development plans being proposed. I feel very strongly the plans will have a negative impact on the countryside for residents, local services, protected land and wildlife.

I am sure there are alternative ways to meet the requirements without having such a drastic and devastating impact on what is supposed to be protected land against this type of development. If this plan goes ahead, it makes a mockery of the process.

Schools, doctors, dentist, hospital services are already over burdened. The highways in and around Warrington are at capacity and these plans would have a detrimental impact on this.

Although it is my belief that the plans will be passed regardless, I feel I must use my voice to say I feel these plans are a disaster for our local area.. I would urge the council to consider alternatives.

Yours sincerely
