

The Borough of Warrington Establishment of Pedestrian Crossing

Statement of Reasons

Concern has been raised in relation to the safety of pedestrians (in particular pupils) crossing Long Lane close to the east most driveway of Beamont Collegiate Academy. Due to these concerns the Council undertook surveys the results of which confirmed these concerns and identified conflicts between pupils and passing vehicles.

The proposed zebra crossing will promote safe movement of pedestrians on Long Lane connecting the School and local amenities with residential areas.

In view of the above it is therefore proposed to introduce a zebra crossing facility on Long Lane in Orford at the location detailed below.

SCHEDULE

Long Lane, Orford	To be located at the east driveway for Beamont Collegiate Academy to the side of 62a Long Lane.
