---

How can our Council offer such ridiculous answers to problems that will only make the present issues even worse.

The thought of another 4000 plus homes in the South without any development and widening of the roads at present will make our local estates even more dangerous with all the additional cars trying to park at the schools and infringing on the local habitants who already find it difficult to find parking space outside their OWN house.

If the council is so desperate for money from the rates it charges for all the new homes what on earth is happening with it.

I mention all the new homes and apartments erected at The Cantilever where dozens of new properties have been built with very little cost to the Council in the form of new roads and services so what is happening with all the new finances raised from council tax etc from these new homes?

Our Community deserves answers to why things are as they stand before the Council makes any further problems for our local inhabitants.

Regards  
P.Wightman
