Dear sir/madam

Follow the information presented I'm strongly against the planned development proposed
I believe in equity and everyone should have a good home ,education , good quality of living but this plan is in
my view putting pressure on

- . Roads
- . Schools
- . Hospitals
- . Doctors
- . Lose of Green belt
- . Air quality (pollution) which is already reported to be above recommend levels

All of which are already under immense strain .

Therefore I vote against the proposed plans and a reviewed plan put forward

Mrs R Stevens
