Hi

I would just like to give my views on the Warrington local plan

For starters do we honestly need more traffic in Grappenhall and the surrounding areas at present it's a nightmare also think of our next generation and don't be taking the homes of sheep cows horses and all the other animals to build eyesore of new houses

Cancer tried last year to take me thankfully I caught it early so listen to people's comments before it's too late before all our beautiful countryside is taken from us that beautiful countryside helped me recover last year it's absolutely a must for mental health watching all the animals in the fields please please don't ruin it for us all.

Do we surviving cancer need more air pollution ask yourself that

Thank you for listening
