---

Dear Sir/Madam or other.

New proposed local plan PSV-2

I object to the latest draft because of some unsound features as below, kindly consider them on the basis of the following issues.

S Warrington overall new build of this size (4200 homes) will destroy the landscape and rural character of S Warrington villages.

There are no exceptional circumstances to build on green belt land.

Where is the new road plan to cater for all the increased traffic.

The idea of a mass transport system from S Warrington is fine, but how do you propose to deliver with limited bridge crossings.

Where is the network plan and how will you deliver it?.

Villages such as Wrights Green and Appleton Thorn will be surrounded by new development, threatening their character.

Regards

Mr. C. Hubball,
