

**THE BOROUGH OF WARRINGTON (MARSH HOUSE LANE)**  
**(ESTABLISHMENT OF PEDESTRIAN CROSSING) 2022**

**STATEMENT OF REASONS**

Marsh House Lane has been highlighted as a location where the volume of vehicles and the pedestrians using the route are sufficient that pedestrians are experience difficulties with finding suitable gaps in the traffic flows to cross safely. This is of particular concern due to the volume of pedestrians that are of a younger age and require greater consideration and protection when cross the road. The implementation of a puffin crossing at this location will create a safe place for them to cross the road.

For this reason it is required to provide notice for the provision of the crossing to support the scheme:

**Schedule 1 – Puffin Crossing**

Marsh House Lane	Located approximately 15m East of the junction with O’Leary Street
