POLLUTION PREVENTION AND CONTROL ACT 1999

THE ENVIRONMENTAL PERMITTING (ENGLAND AND WALES) REGULATIONS 2016

A2 Variation Form

Introduction

When to use this form

This environmental permitting regime is known and referred to as Local Authority Integrated Pollution Prevention and Control ('LA-IPPC'). Installations permitted under this regime are known as 'A2' installations. Use this form if you already have a permit and wish to vary your permit conditions or wish to make a change to your installation.

Before you start to fill in this form

You are strongly advised to read relevant parts of the Defra general guidance manual issued for LA-IPPC and LAPPC, revised in 2020 and available at [Environmental permitting guidance: Core guidance - GOV.UK \(www.gov.uk\)](https://www.gov.uk/guidance/environmental-permitting-guidance-core-guidance). This contains a list of other documents you may need to refer to when you are preparing your application and explains some of the technical terms used. You will also need to read the relevant sector guidance note, BREF note, or Process Guidance note. The EP Regulations can be obtained from The Office of Public Sector Information or viewed on their website at <https://www.legislation.gov.uk/browse>.

Which parts of the form to fill in

You should fill in as much of this form as possible. The appropriate fee must be paid with the application to enable it to be processed further. When complete return to:

Other documents you may need to submit

There are number of other documents you will need to send us with your application. Each time a request for a document is made in the application form you will need to record a document reference number for the document or documents that you are submitting in the space provided on the form for this purpose. Please also mark the document(s) clearly with this reference number and the application reference number, if you have been given one, it will be at the top of the form overleaf. If you do not have either of these, please use the name of the installation.

Using continuation sheets

In the case of the questions on the application form itself, please use a continuation sheet if you need extra space; but please indicate clearly on the form that you have done so by stating a document reference number for that continuation sheet. Please also mark the continuation sheet itself clearly with the information referred to above.

If you need help and advice

We have made the application form as straightforward as possible, but please get in touch with us at the local authority address given above if you need any advice on how to set out the information we need.

B1.2 Why is the variation application being made?

specific permit conditions will require amending.

we are unsure whether the proposed changes will require a variation and wish the local authority to advise on this.

B.1.3 Site Maps

Please provide:

* A suitable map showing the location of the installation clearly defining extent of the installations in red and indicating the extent of the installation affected by the proposed change

Doc Reference **ANNEXE 5 & ANNEXE 5.1**

* A suitable plan showing the layout of activities on the site, including bulk storage of materials, waste storage areas and any external emission points to atmosphere, indicating which activities will be affected by the proposed change

Doc Reference **ANNEXE 5 & ANNEXE 5.1 and ANNEXE 2 & ANNEXE 2.1**

* A suitable plan showing the site drainage system and all discharge points to drainage or water courses indicating which will be affected by the proposed change

.

Doc Reference **ANNEXE 6**

B2 The installation

Please provide written information about the aspects of your installation listed below. We need this information to determine whether you will operate the installation in a way in which all the environmental requirements of the EP Regulations are met.

B2.1 Describe the proposed change to the installation and activities and identify the foreseeable emissions to air, water & land from effecting this change (this will include any foreseeable emissions during start up, shut down and any breakdown/abnormal operation).

The use of process flow diagrams may aid to simplify the operations.

Doc Reference: **SEE ANNEXE 1**

B2.2 Once all foreseeable changes in emissions as a result of the proposed change have been identified each emission should be characterised (including odour) and quantified.

- atmospheric emissions should be categorised under the following.
 - (i) point source (e.g. chimney/vent, identified by a number and detailed on a plan)
 - (ii) fugitive source (e.g. from stockpiles / storage areas).
- water emissions should be identified at discharge points.

Doc Reference: **SEE ANNEXE 1**

B2.3 For each emission which will be affected by the proposed change describe the current and proposed technology and other techniques for preventing or, where that is not practicable reducing the emissions.

Doc Reference: **SEE ANNEXE 1**

B2.4 Identify the raw and auxiliary materials, other substances and water that will be affected by the proposed change in the activities listed in the table in B1.1.

Doc Reference: **SEE ANNEXE 1**

B2.5 Characterise and quantify the effect of the proposed change on each waste stream from the installation and describe the proposed measures for waste prevention and reduction. Please also include any changes required in waste management issues storage and handling of the waste.

Doc Reference: **SEE ANNEXE 1**

B2.6 Identify if any changes will occur to a discharge of any List 1 or List II substance as a result of the proposed change and if any are identified. Explain how the requirements of the Groundwater Regulations 1998 (SI 2746) will be addressed (see attached lists). Also describe the proposed techniques used to prevent and reduce discharges to groundwater as a result of the change.

Doc Reference: **SEE ANNEXE 1**

B2.7 Provide details of the effect the proposed change will have on energy consumption and generation by source and end-use and, if there is a change describe the proposed measures for improvement of energy efficiency. If this change will affect your inclusion in a climate change levy agreement, please provide details.

Doc Reference: **SEE ANNEXE 1**

B2.8 Describe the effect the proposed change will have on systems used in the event of unintentional releases and their consequences. This must identify, assess and minimise any change in the environmental risks and hazards, provide a risk-based assessment of any change in the likely unintentional releases.

Doc Reference: **SEE ANNEXE 1**

B2.9 Describe the effect the proposed change will have on the sources of noise & vibration identified in your original application. Also describe any additional sources which may be added by this proposed change and the proposed technology and techniques for the control of the noise & vibration.

Doc Reference: **SEE ANNEXE 1**

B2.10 Describe the proposed measures for additional monitoring of all identified emissions as a result of the proposed change.

Doc Reference: **SEE ANNEXE 1**

B2.11(a) Describe the effect the proposed change will have on any pollution risk to land and the ability to return the site of the installation to a satisfactory state upon definitive cessation of activities, you may wish to refer to the site report submitted in your original application.

Doc Reference: **SEE ANNEXE 1**

B2.11(b) If the proposed change will result in additional land being included within the site of the installation, please submit an additional site report describing the condition of the land identifying any substance in, on or under the land which will constitute a pollution risk.

Doc Reference: **SEE ANNEXE 1**

B2.12 Describe the effect the proposed change will have on your environmental management techniques, in relation to the installation activities described.

Doc Reference: **SEE ANNEXE 1**

B2.13 Detail in the table provided below, or on an additional sheet if preferred, the exact conditions you wish to change in your current permit.

See Annexe 4

B2.14 Additional information
